

CONCESSIONS CHANGE SITUATION

Turks May Sign Lausann Treaty Without Delay

Vital Clauses in Near East Pact to Which Ismet Pasha Objects Have Been Stricken Out.

(By The Associated Press)
LAUSANNE, Feb. 6.—It is understood here that Ismet Pasha, head of the Turkish delegation to the Near East Conference may be persuaded by the allies to delay his departure announced for tomorrow morning if the negotiations now going on among the chanceries in Paris, London and Rome result in an agreement to resume negotiations.

TURKEY MAKE PEACE WITH GREAT BRITAIN

(By The Associated Press)
ONDON, Feb. 16.—France has notified Great Britain that the Ottoman delegation to the Near East Conference has agreed to sign all the peace terms. Reuters Limited quoting a French source says it is confirmed in high quarters that the Turks made Munich's German proposals for a separate peace between Turkey and Great Britain. No official details are available.

LONDON, Feb. 6.—Reuters Lausanne correspondent was informed today that M. Bompard, head of the French delegation had indicated that there was a possibility of the Near East treaty being signed almost immediately.

TURKEY PLAYS A WINNING HAND

(By The Associated Press)
LAUSANNE, Feb. 6.—Riza Nur Pasha, head of the Turkish delegation to the Near East Conference, said today that Turkey and the powers had reached an accord on the juridical capitulations but there were still important financial matters on which an agreement had not been effected.

The Turks said they would leave for Ankara at six o'clock tomorrow morning. They said negotiations would be eliminated from the treaty, economic clauses which they objected to, leaving these questions to further negotiations.

Riza Nur said Turkey believed the objectionable clauses could be eliminated or revised. The indications are that the Turks by furthering the peace seek more concessions from the allies and that the ultimate state of the Lausanne treaty rests not here but in the hands of the governments in London, Paris and Rome.

Big Increase Seen In Realty Values

Land Book Completed Now Shows Increase in Value of Real Estate Over Last Year of More Than \$700- 000, Taxes to City Increasing Proportionately.

The land valuation book on which appears the assessment of every piece of real estate property in Danville has been completed by the commissioner of the revenue. It shows interesting figures. The salient point is that the building which has been done in Danville during the taxable period has been on such a scale as to swell realty values by nearly three quarters of a million dollars and consequently to increase taxes which will come due to the city.

The taxable value in the year 1922 was \$19,656,150, this taxable value this year is \$20,358,825, or an increase of \$702,675 over last year. This increase in valuation will bring to the city an increase in taxes of \$125,000 and all of which this tax is payable in June and December of this year. The appreciably jump in taxes due reflects in no uncertain way Danville's building boom.

The assessment of this property which will when finished represent an expenditure of over \$500,000 in the past year, being an increase of \$249,000 and the lot at \$60,000 making a total assessment of \$269,000.

Prelate Is Taken Ill At Cathedral

RICHMOND, Va., Feb. 6.—While presiding at the service at the Cathedral yesterday morning, the Right Rev. D. J. O'Connell was stricken with an attack of sudden weakness and had to be assisted from the chancel. He recovered sufficiently to resume the service after which he went to the rectory and rested for the remainder of the day. He was not at the service last night.

This morning, Bishop O'Connell was reported considerably improved after a restful night. His physician has advised him to remain in bed for a few days.

The sudden collapse is the result of a month of very strenuous work. Bishop O'Connell has been at the cathedral service early and late, in addition to having made numbers of calls and rendered other service throughout the state.

Mystery in Model's Death

Death of Miss Anita Lehman, 23, artist's model, is under investigation by St. Paul police. She was found dead from poisoning after returning from New York to her St. Paul home. Inability to obtain permanent employment is believed the cause, though relatives say there had been romance with a New York chemist, with an unhappy termination.

Propose \$350,000 School Bond Issue

Building Committee of the Board of Trustees Names Amount to Be Submitted to That Body.

The building committee of the city board of school trustees has virtually determined the amount of the bond issue for school improvement which it will recommend to the board as a whole at its next meeting. The amount proposed is \$350,000 which will permit the widening of the city's school facilities in such a way as to take care of its needs for several years to come. Under the terms of the tentative plan, it is said, a new building is not proposed unless it is the remodeling entirely of the existing school which does not conform to the present accepted type of healthful building. The projected rebuilding of this school is not definite by any means and is subject to action by the school board. The plans generally call for the addition of wings to school buildings now standing which would provide a junior high school and greatly relieve the pressure for additional space in the Grove street high school. The colored schools would, under the plan, be also enlarged and improved.

The committee is said to have been almost decided on the amount of the bond issue when a new question was raised and it was decided, owing to the necessity of one member of the committee leaving the meeting, to hold another session prior to Thursday when the full board is to pass on the plan.

The point raised at the last meeting is not expected materially to change the figure of the bond issue which, in the words of one member of the committee will be "around" \$350,000.

The city just now is well within its bonded indebtedness limit. The limit is in rough figures \$3,600,000 with bonds totalling approximately \$1,800,000 outstanding today.

The trustees will first have to pass on the plan devised after several months of work by the building committee and it will then have to confer with the council for ratification before being placed before the people in an election. It is likely that other bond issue projects, notably for sewer extension will be voted on at the same time as the school bond issue, all of which will be operative to serve six months or pay a fine of \$200 for failing to stop and aid Abraham Paley, who he had run down. Hill was acquitted by a jury last night of murder in connection with running down of Paley, an aged man but was found guilty of failing to stop and aid him.

If the jury had found you guilty of manslaughter, the judge said, it would have let the verdict stand. It seems to be the order of the day that pedestrians must get out of the way of automobiles. Understanding the law which says specifically that a driver must not drive over a certain speed.

Harding Postpones Debt Fund Message

Statement to Congress Asking Modification of Law to Admit Approval of Set- tlement Negotiated With Britain, Not Ready.

(By The Associated Press)
WASHINGTON, Feb. 6.—President Harding decided to postpone until tomorrow at least, his message to Congress asking modification of the debt fund law to admit final approval of the settlement negotiated with Britain. It was said that no definite time had been fixed for transmission of the president's recommendation which had been expected to be heard today. It was indicated that the message would go to the Capitol as soon as further conferences with Senate and

Appealed Cases Are Disposed Of

Several appealed liquor cases were disposed of in the corporation court this morning. These cases, while of criminal nature, come up for disposition in the civil court because the appeals are from sentences rendered under the city liquor law. In most instances the verdict of the lower court has been sustained. Guyser Pulliam failed to answer to his name when his case was called this morning and the bench of \$25 was ordered forfeited. He was tried on a charge of loitering by a jury of seven in his absence and a fine of \$50 was imposed.

A number of small damage suits are to be heard within the next few days. The case of Isaac Schuster against Gilmer, Inc., is set for tomorrow. This action grows out of alleged alterations made in a storehouse owned by Mr. Schuster.

The bail bond of W. Y. Neill has been materially reduced by the court. Yesterday Mr. Neill was rebuffed for appearance in March on security of \$2,000 instead of \$5,000 which has prevailed pending an outcome of his case in the Supreme Court. M. O. Nelson went his security. Reversal of the jury's verdict in the corporation court by the Supreme Court keeps the case as a misdemeanor and not a felony and should a further trial of the case ensue it will be on the charge of simple assault.

Judge Speaks Up For Pedestrian

(By The Associated Press)
ANDERSON, S. C., Feb. 6.—Declaring that it seemed to be the order of the day that pedestrians must dodge automobiles, Judge John Wilson in the Circuit court today, sentenced Henry Hill to jail for failing to serve six months or pay a fine of \$200 for failing to stop and aid Abraham Paley, who he had run down. Hill was acquitted by a jury last night of murder in connection with running down of Paley, an aged man but was found guilty of failing to stop and aid him.

If the jury had found you guilty of manslaughter, the judge said, it would have let the verdict stand. It seems to be the order of the day that pedestrians must get out of the way of automobiles. Understanding the law which says specifically that a driver must not drive over a certain speed.

On Trial For Murder Done 40 Years Ago

(By The Associated Press)
LUMBERTON, N. C., Feb. 6.—Completion of the jury trial beginning today in the trial of Joseph E. Kemp charged with the murder 40 years ago of Daniel McNeill was expected this afternoon according to counsel in the case.

Kemp was arrested in St. Augustine, Fla., last September and returned here. It was indicated that Kemp would claim self-defense and would introduce evidence to support this plea.

Harding Urges Bill To Conserve American Timber

(By The Associated Press)
WASHINGTON, Feb. 6.—President Harding urged enactment of legislation for the conservation of forests in a letter today to Representative Clark, New York Republican, member of the House Agriculture committee which has been conducting hearings on the subject.

Co-operation between the federal government and states in a comprehensive policy of reforestation and timber conservation is proposed in a bill before the committee.

When we remember that substantially 1-4 of the natural area is forest land or potential forest land of no value save for timber production," the President said, "the conservation of our timber resources is a matter of the highest importance. At present we have consumed or destroyed 60 per cent. of our original timber wealth and we are now using timber at a rate of four times as fast as we are growing it."

Savannah Prepares a Warm Welcome

(By The Associated Press)
SAVANNAH, Ga., Feb. 6.—Savannah is ready to receive the American troops from Germany who will arrive tomorrow on the St. Michel. All plans have been completed for a demonstration and a big welcome to the last of the American troops from the Rhine from the time the vessel is sighted until she reaches the city.

The ship is expected to arrive at 7 a. m. Wednesday, is not expected to dock until after noon, according to a radio received today.

There are about 100 St. Michel, 205 enlisted men and officers, 13 German wives and 24 children. About 500 of the soldiers will be disembarked at Savannah to be discharged. The boat will then go to Charleston, S. C. and will dock there Thursday where it will land officers. After a barbecue for soldiers arranged by merchants, a parade will be staged participated in by the troops and 400 enlisted men will then go to Fort Screven where they have been assigned.

Golf Club To Elect Officers Tonight

The annual meeting of the Danville Golf Club will be held at 7:30 o'clock tonight at the Chamber of Commerce. At this meeting officers will be elected for the year and the annual report of the retiring president, John H. Schoolfield will be presented.

Germany Denies Her Policy is Being Modified

Presbyterians To Gather Feb. 27-28

RICHMOND, Va., Feb. 6.—It is expected that about 2,000 members of the Presbyterian church will meet in Richmond on Feb. 27-28, when the eighth biennial general convention of the Laymen's Missionary Movement opens at the Second Presbyterian church, Fifth street near Main. Representatives will come from Virginia, North Carolina, District of Columbia and Maryland. At the same time there will be meetings of the Woman's Auxiliary at the First Presbyterian church, Madison and Grace streets.

Among the speakers at the convention will be the following: Dr. Robert E. Spicer, New York city; F. C. McMillan, Des Moines, Ia.; Rev. J. H. P. Williams, D. D., Nashville, Tenn.; Rev. M. E. Melvin, D. D., Chattanooga, Tenn.; I. T. Shanks, Selma, Ala.; C. R. Caldwell, Staunton; Rev. R. C. Coit, South Church, Knoxville; Rev. J. C. Starnes, Jr., New York city; Rev. J. W. Hassell, Marquette, Japan.

Music will be furnished by the Union Theological Seminary quartet with a special choir at the auditorium meetings being organized under direction of J. Scott Parrish.

England Endeavors To Keep Young People In Schools

LONDON, Jan. 19.—Plans have been made by the educational authorities in England and Wales to keep children between the ages of four and sixteen in the schools, rather than allow them to enter industries and other lines of work where there are already 200,000 unemployed between these ages.

Lord Astor's plan to remedy the evil has been given much attention, and the present plan to be submitted to Parliament has been found on it.

'Bobbing' Finds Few Friends In Women's Clubs

NEW YORK, Feb. 6.—Women club members throughout the country says Penrhyn Stanlaw, the artist, are against bobbed hair. Being considerably worried as an artist, over the bobbed hair question, Mr. Stanlaw wrote to hundreds of them. And, oh, the things they answered!

Taire Miss Lila Elizabeth Kelley, president of the Boston Ruskin club, for instance.

"I standardize," she objects. "Natural hair differentiates. It expresses personality."

And when you rob a girl of her personality, what has she left?

"Not a male I know has a good word to say for bobbed hair," says Mrs. Eugene E. Stevens, president of the Chevy Chase Woman's club, Chevy Chase, Md.

An interesting question is raised by Mrs. R. L. Lawrence, chairman of literature of the California Federation. How, asks Mrs. Lawrence, could a queen look queenly with bobbed hair sticking out from beneath her crown?

Mrs. Lawrence, of course, means queen in the sense of a king's wife, and the Rapper's answer undoubtedly would be: "Who wants to be a queen?"

Mrs. Euphemia Tubbs, president of the Murray club, of Lewiston, Me., says:

"Must we forever look backward? Can we not be creative in this twentieth century and set some styles for ourselves?"

This statement obviously indicates Mrs. Tubbs is either for or against bobbed hair.

Mrs. Otto Hahn, president of the Society for Political Study here, considered bobbed hair artistic. "I prefer it," she says, "but a plain one will find it better, even at that age, to keep to the old styles."

What Mr. Stanlaw wants to do is to persuade the girls to do their hair up according to the sculptural style.

Car Hits Shop; Place Collapses; Two Are Killed

(By The Associated Press)
ST. PAUL, Feb. 6.—Two St. Paul policemen were killed and two injured when a police car skidded on an icy street and crashed into a millinery shop in the residential section. The front of the building collapsed when the car hit it.

Asheville Has \$32,000 Fire

(By The Associated Press)
ASHEVILLE, Feb. 6.—Fire of undetermined origin early today damaged the three-story building of the Asheville Supply and Foundry Company, resulting in a loss of \$32,000. Valuable machinery was ruined and the building must be replaced.

Embassy at Washington, on Contrary, Reports Resist- ance to French Occupation Is Growing

The policy of resistance to the French occupation of the Ruhr valley has not been modified but it is growing. The German government declared today through its embassy in Washington that its policy of resistance to the French occupation of the Ruhr valley has not been modified but it is growing. The German government declared today through its embassy in Washington that its policy of resistance to the French occupation of the Ruhr valley has not been modified but it is growing.

Managers of big industries in the Ruhr valley express confidence in their ability to carry on and at the same time resist the French from getting anything worth while out of the district, however effectively they might occupy it.

The immense Thysen plants in the Ruhr valley employing some 66,000 men are declared by the management not to have been effected by the strikes.

The plants are working full time turning their own fuel as do many industries. The railway strike seems again largely effective in the Ruhr and important districts.

Navigation on the Rhine from the Ruhr is at a standstill.

Chancellor Cuno head of the Berlin government is on a visit to the Ruhr area where he has been holding conferences and informing himself on the situation.

Hugo Stinnes seen by interviewers at Essen would reveal if the contract he is holding on his surprise visit to the Ruhr are with a view to negotiations for settlement of reparations differences.

Several German soldiers were injured in a demonstration at Dortmund, broken up by the police. No details have followed the reported advance of the French into a new area 25 miles beyond the frontier in Hesse where they are said to have occupied Godelan.

The move was in the direction of Mannheim which the German government has said the French would occupy, the dispatch said.

SECOND DEGREE MURDER IN STILL EXPLOSION CASE

(By The Associated Press)
LONG ISLAND CITY, N. Y., Feb. 5.—A conviction, unique in criminal court records here, was returned by a jury here today when Mr. and Mrs. Carmine Pizzo were found guilty of second degree manslaughter in the death of Police Officer Duffy, fatally injured in a still explosion while leading a raid in the Pizzo home last July. They were sentenced to 7 1/2 years each at Sing Sing. The still was found in the cellar of the Pizzo home and exploded while the police were inspecting it. Lieutenant Duffy died ten days later from his injuries. Several other officers, who were in the raiding party were injured in the blast, but recovered.

ALLEGED THIEF IS FOUND WITH THERMOMETER

Last evening the police caught an alleged thief who is seasonal if nothing else. Among the many things that his super-acquidiveness had led him to appropriate was a thermometer and with the temperature falling rapidly last night, what article could have been more fit?
A man who gave his name as E. C. Harvel was arrested late last night by Police Officer O. J. Cook at the Fitzhugh hotel on charges of larceny and violating the Mapp act. The man's arrest was the result of complaint made by the clerk, who reported that guests of that hostelry had reported to him the loss of various articles from their rooms. A search of the man's room by the officers revealed a quantity of small articles such as fountain pens, thermometers, tie, scarf, plus, toilet articles and other objects of this nature. A pop bottle of whiskey was also found. The clerk reported that guests have been complaining for several days of having things mysteriously taken from their rooms. Included in the bulk of goods was a lot of stamped envelopes and stationery of various kinds known and addressed in this city and vicinity particularly, but because I have taken pains to verify some few of his facts, the first one being that, on the eve of one of the raids, Queen Marie was certainly only "entertaining legends," though stated as "inharmonious facts."

QUEEN MARIE OF RUMANIA

Mrs. B. F. Mebane Points Out a Few Inaccuracies in a Recent Book
The following communication published by the New York Times from Mrs. B. Frank Mebane, of Spray, N. C., a woman widely known and admired in this city and vicinity particularly, will be read with peculiar interest and doubtless with pleasure by many who stand for fair play and accurate calumny as well as accurate and truthful history.

Having read Mr. Eugene Baggot's "Eminent Europeans" with particular interest, I read with even greater interest the criticism of it in your Book Review of Nov. 19, 1922. I have not a doubt Mr. Baggot believes to be true what he states about the Queen of Rumania and others of his eminent Europeans, but some of his statements in regard to Queen Marie are certainly only "entertaining legends," though stated as "inharmonious facts."

I feel that I can speak with authority not only because I know the Queen personally (and, as Mr. Baggot says, "doubtless also belong to that great company of worshipful Americans"), but because I have taken pains to verify some few of his facts, the first one being that, on the eve of one of the raids, Queen Marie was certainly only "entertaining legends," though stated as "inharmonious facts."

It is a thoroughly tested and proven remedy, recommended by druggists. Bear's Emulsion will break up the most stubborn cough or cold. It will tone up the system weakened by sickness and help win back health and vigor.

BEAR'S EMULSION

On sale at leading druggists. Can be ordered direct from John D. Bear Co., Cincinnati, Va.

Witchery Scares Village

MRS. ANTOINETTE ARNONE WHO COMES UP BEFORE RECORDER R. J. BAKER (CENTER) ON CHARGES GROWING OUT OF THE DISTRIBUTION OF THE MAGIC CHARMS (BELOW) RIGHT. ANGELINA ARNONE, WHO SAYS THAT THOSE WHO CALL HER MOTHER A WITCH ARE FOOLS.

BY ALEXANDER HERMAN (Special to The Bee)

GARFIELD, N. J., Feb. 6.—Is the practice of witchcraft possible in this enlightened twentieth century? Can the scary, terrifying magic that brought the "ducking stool" to many women in colonial times be brought back in this modern day of scientific explanations of such so-called mysteries?

Recorder R. J. Baker here is digging back through dusty statute books in the hope of finding some ancient precedent that will help him out of his difficulty.

For Baker will preside at the trial of Mrs. Antoinette Arnone, under arrest charged with being a disorderly person in pretending to use a "crafty science" to help others out of trouble, where she now reigns, not as English, not as Russian, but as Rumanian.

The points I have mentioned may, in themselves, seem trivial, and I have purposely refrained from comment on the more serious "inharmonious facts" and "entertaining legends," with which Mr. Baggot's sketch abounds. Though born, as he says, in a country where preference for things Rumanian is not, to put it mildly, a common tradition, he yet confesses that he has given years of study to Rumanian problems. I feel sure had he ever known Queen Marie of Rumania, he would not have written from hearsay on these subjects.

It also happened to know, as a fact, that when Bucharest was evacuated, so far from moving in royal splendor or even in "lavish show," as Mr. Baggot would have it, the entire Court was moved on two hours' notice, and for two weeks lived in the overcrowded, uncomfortable train, because there was not a suitable house available. When a house was finally secured it was of the simplest kind and only large enough for the Queen and her immediate family—for she would not be separated from her children. Even Mr. Baggot admits "she adores her children."

While in Jassy, she built hospitals out of nothing, and she and her daughters nursed, not only the wounded, but those suffering with typhus fever, and thus earned the undying devotion and gratitude of the entire

FRUITS OF MEL TROTTER'S WORK BEGIN TO SHOW

(Greensboro News)

Yesterday (Sunday) morning at the First Presbyterian church there was the first harvest of the fruits of last week's series of revival services and Bible teachings conducted by Rev. Mel Trotter, world renowned evangelist and peace mission leader.

People publicly acknowledged their fealty to God by joining his church. One member was received by letter; the other 14 on profession of faith. It was not a vast multitude, but it was a work upon which the evangelist later expressed deep satisfaction.

"A whole city may be brought into an upheaval about religion," he said, "and I know the method by which it can be accomplished. But I would rather have a few professing their sincere faith in Jesus Christ than hundreds flocking in but not knowing what they are about."

In a manner, that was the theme of his morning sermon, delivered to a packed house. His text was Isaiah 63:1-4, "they that were weary upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not so weary; they shall walk, and not faint."

"At Pentecost," he related, "the first day that Peter preached, 3,000 were brought into the church. It was when Peter came down from the cross that he learned that those who wait upon the Lord must also wait in walking, because of his strength they need not faint."

He said that he may feel ourselves lifted up upon the wings of eagles, our spirits rise in zeal until we would move the world in a day. But the test comes when we come down to life and when we find that we are thwarted in our exalted desire because of the opposition of sin, we learn the lesson that we must wait. But God gives us the strength to wait and not faint. His church has not been able to bring the whole world to him but by reason of his strength it keeps plugging along at the job, waiting and not fainting."

He said that he can claim that a sinful world does not treat Christ passively, that where there is not love for him through knowledge of him, there is hatred and active opposition to his stands between the church, and immediate evangelization of the world. It is because of the determination of the church, because of its service to him, that it is enabled to keep up the fight and bring sinners into the fold by ones and twos—a constant, steady accomplishment rather than a one-time victory in a day. There are times when it can fly; but most times it must be content with walking—consoled because it does not faint."

Last night there was not room to accommodate the throng that came to hear the evangelist. Again every available bit of space was occupied and numbers had to be turned away. The evening sermon was one of the most powerful Mr. Trotter has yet preached.

NOT SAME A. W. BROWN

Arthur W. Brown, who resides at 1208 North Main street, requested yesterday that it be made known that he was not the "A. W. Brown who was fined in the police court several days ago on a disturbance charge."

Spot F. Pace, recently operated at the General Hospital is making satisfactory progress towards recovery.

DIST. COMMITTEE TO MEET HERE NEXT THURSDAY

Thomas G. Burch, of Martinsville, chairman of the Fifth District Democratic committee, has notified the members of the committee that a meeting of the body has been called for Thursday evening at 8 o'clock at the Chamber of Commerce to decide the matter of a Democratic nominee for the State Senate to succeed the Hon. George T. Hixon, of Chatham, resigned.

After failure of the Democratic committee of Danville and the county of Pittsylvania to agree on a method of nomination, the matter was referred to Harry R. Hyrd, State Democratic chairman, who referred it in turn to the state committee. At a meeting last Friday this committee referred it to the district committee for final action.

The members of this committee are: Thomas G. Burch, Martinsville; T. Lee Clark, Stuart; D. A. Nicholson, Furrum; C. A. Osborne, Keysville; John W. Carter, Jr., Danville; Mrs. W. C. Merchant, Chatham; Miss Nannie Frye, South Boston; Mrs. J. W. Booker, Sr., Martinsville; Mrs. Lou Reid Padgett, Independence; Mrs. Garland Hixwell, Hillsville.

BATES JUMPED HIS BOND IN PHILADELPHIA

Another letter bearing on the record of Harry Bates, held here on a pocket charge, was received Sunday by Chief of Police T. R. Bell. The letter, which was from a man giving his name as P. F. Reardon, of Philadelphia, tells of his long search for the man in question who caused him a loss of \$500 by forfeiting his bond for this amount by failing to appear in court to answer a charge of stealing an overcoat. Other aliases names of Bates are Joe Bergen, Joseph Mehan and Hynde Kush.

Reardon learned Bates' identity through fingerprints sent out from Danville by Officer Floyd Towell.

In the letter, Reardon states that Bates became acquainted with him and pretended to be a steadfast friend. When the larceny case came up he prevailed on Reardon to go his bond for \$500, stating that it was his first trouble and that he would in the future follow the straight and narrow. After the man failed to answer to the charge, Reardon says he set out to locate the man and recover his records in various prisons, including New York city, and although several photographs resembling the man were found, no definite trace could be traced. He caused fingerprints sent from Danville were located and identified. Reardon requests that the local authorities send him full particulars of the man held here.

Miss Carrie Pace continues to show improvement at the General Hospital where she has been for two weeks.

ARMENIANS WILL TO ENTER ABOVE NUMBER ALLOWED

(By The Associated Press)
WASHINGTON, Feb. 5.—Legislation to admit Armenian refugees in excess of the immigration law quota was passed today by the Senate and sent to the House where similar bills are pending.

The bill as passed was a combination of measures introduced by Senator Keyes, Republican, New Hampshire, and Williams, Democrat, Mississippi and was supported by leaders of both parties.

It provides that during the period ending June 30, 1921, there shall be admitted to the United States Armenian orphans up to a maximum of 25,000 upon guarantees from families and institutions that they shall be cared for. Adult Armenian refugees having relatives or friends in the United States also would be admitted in disregard of the immigration quota during the period, and Senator Sterling, Republican, South Dakota, in charge of the bill, said it was expected that between 6,000 and 6,000 such adults would come to the United States.

MOTHER STATES AMAZING FACTS

Mrs. Sharpe Declares Daughter Helpless for Months, Restored by Tanlac—Gains 45 Pounds.

"My daughter, who is now eighteen, says 'Tanlac and mama' are the dearest friends she has," recently stated Mrs. H. A. Sharpe, 2504 N. Street, Richmond, Va.

"Anna first began to have slight trouble with her stomach and soon rheumatism developed all over her body. When she began taking Tanlac she had been in bed seven months and was as helpless as an infant. She grew so pale and thin it brought tears to my eyes for I had little hope of her getting well."

"After a few doses of Tanlac she asked for something to eat and soon she was sleeping better and complaining less. Her improvement from then on was rapid and now she is the happiest woman in the world who I saw her health was restored. She now weighs one hundred and forty-five pounds, which makes a gain of forty-five pounds and her cheeks are like roses. Tanlac will have my life long praise."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.—adv.

Famous Old Recipe for Cough Syrup
Easily and cheaply made at home, but it beats them all for quick results.
Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.
Get 2 1/2 ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make one quart. Stir well, and strain, and clarify molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.
It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.
Pinex is a special and highly concentrated compound of sweetened Norway pine extract, known the world over for its healing effect on the membranes.
Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded.
The Pinex Co., Ft. Wayne, Ind.

Issue Journals As Part of Plan To Bilk Public

Start Own Publications After Reputable Newspapers Reject Their Ads—Invent New Schemes.

BY EDWARD A. SCHWAB
NEW YORK, Feb. 6.—Big dividends! That is the bait that lures millions to sink an aggregate of half a billion dollars annually in humbug stock schemes. In more comprehensive figures, that is 500,000 times \$1,000.

In my years of investigation I have watched a vast army of gullible people—mostly the poor, the wage-earner, the widow—surrender their savings in spite of repeated warnings.

Oil and mining stocks have taken the most. Oil is easy because tales of fortunes made over night in the oil fields surpass the wildest romances.

There is always something new in the game of fleecing the public. In this and succeeding articles I am describing some of the newest schemes.

Texas is proving the birthplace of up-to-date ideas in high finance. One of the new get-rich-quick schemes, born of the fact that it is increasingly difficult for promoters to secure advertising space in reputable newspapers, is publication by promoters themselves of "independent oil journals."

Frequently an honest oil promoter frankly invites the public to gamble with him. More often the promotion is a fraud.

By printing and circulating his own spurious publication a promoter builds up a sucker list. Then, by reselling to the United States mails, he drives home the stock sales appeals of one promotion after another.

These papers pose as fraud-fighting organs of public welfare, but while they condemn other oil company promotions, they try to deceive their readers into believing their own promotions are honest and legitimate.

Sometimes they offer to give shares of stock and acreage to those subscribing to the paper. Another method is to sell tips. One promoter of this kind sold shares for as little as a quarter of a cent each!

Another offered subscribers an assignment of five acres of land for each \$5 sent him in subscriptions. Investigation showed leases on the land for drilling could be bought in the open market for 10 cents an acre.

Bread Lines Small As Many Get Work In Middle West

CHICAGO, Feb. 6.—Bread lines in the mid-west have been nearly eliminated and unemployment greatly reduced this winter, according to reports from state labor departments, industrial commissions, employers' associations, and employment bureaus.

The causes were given as improved industrial conditions, mild winter and considerable out of doors work for common labor. An exception was reported at Cincinnati in a floating negro population, out of work, whose presence is attributed partly to migration to northern jobs during the latifrost last summer and partly to strike from work on two government dams near the city.

The northwest generally reports a demand for lumberjacks with considerable call also for building workers and common laborers.

At Columbus the State City Free Employment Bureau estimated 3,000 men out of work compared with about 15,000 a year ago. The Employers' Association of Detroit, representing 79 firms, reported in mid-January 194,697 men and women employed, and estimated the unemployed at 300,000 to 350,000. It said more are employed now in Detroit than ever before in the city's history.

The Association of Employers of Indianapolis reported employment so nearly normal that no effort has been made to check the total out of work, reported no authoritative figures, but welfare organizations in Louisville said the unemployed were not numerous. At St. Louis the State Labor Bureau estimated about 5,000 out of work compared with 45,000 last winter. In Kansas City, workers were reported among the unemployed.

For Illinois the State Department of Labor estimated 145 per cent. more employed, amounting to 119,000 persons, than a year ago. The State Labor Commissioner of Iowa estimated the unemployed at less than 20,000 compared with 40,000 last year.

The U. S. Employment Bureau at Milwaukee estimated the number out of work as small, while the State Industrial Commission office at Madison reported employment conditions satisfactory due to heavy logging and to building. At Green Bay employment managers speaking for the Fox river valley noted an unprecedented call for lumberjacks. Duluth labor and demand for workmen and for mine workers. Expecting a heavy demand for iron ore when lake shipping opens, winter stripping operations at these mines. Duluth steel mills, closed last winter, now employ about 3,500.

In Sioux Falls, South Dakota, the Secretary of the Chamber of Commerce, noted the mild winter as one cause of unemployment. The unemployed was called negligible.

Teledore reports none are unemployed who are willing to work.

There is an improvement of from 40 to 50 per cent in the unemployment situation in Minnesota now, as compared with the same period last year, according to the state employment bureau. None of the larger cities have had bread lines this winter, whereas a year ago Minneapolis fed hundreds by that means. Actual figures on unemployment have not been compiled by the state employment bureau, but the conditions now were described as "vastly improved over a year ago."

This improvement is borne out in the want ad columns of newspapers in the larger cities, where there has been a marked shrinkage in the situation wanted and an increase in the help wanted columns.

In all Kansas only 5,000 are unemployed.

Couple Murdered On Lonely Road

Miss Ruth McElwain Tucker, 20, shown above, and Duncan Waller, 19 (inset), were mysteriously shot to death while automobile riding on a lonely road near Berclair, Tenn. The couple had been estranged from her husband. Waller was out to wed a Memphis girl.

Good Morning Judge!

B. C. Harvell was this morning held for the grand jury on a charge of assault and battery and costs for violating the Mapp Act. Harvell is charged with taking articles from the rooms of at least two guests at the Pitsylvania hotel. The goods alleged to have been taken are valued at about six dollars. Harvell denies the charges, declaring that it looked like a frame-up to him. The police found the goods in his trunk and the man confessed that he knew nothing of it being there. One guest of the hotel is said to have caught Harvell in his room. He said the man excused himself, stating that he thought that he was in the room of a friend.

Joe Arthur drew a fine of \$15 and costs for an alleged assault on Mrs. Coley Glenn.

Daddy Harrington, colored, was assessed six dollars and costs for "slapping" his wife, Mary Hanks. A quarrel over the children resulted in the alleged assault. The husband claimed that the wife had taken all authority over the children and that when he tried to correct them she interfered.

A fine of \$10 and costs was assessed J. C. McCollum for driving an automobile while under the influence of whisky. No jail sentence was imposed.

W. W. Turner, colored, paid \$15.00, the costs of the warrant, on a charge of not having proper lights on his auto.

Case Of Watts Set For Feb. 13th

(By The Associated Press)
RALEIGH, Feb. 6.—The trial of A. D. Watts, former commissioner of State revenue on the charge of aiding and abetting immoral conduct, in the court here, was continued on petition for counsel. Watts and wife set for February 13th.

Col. Watts is in a sanitarium at Statesville, his counsel said, and evidence of his physical condition, advanced for the reason of the continuance of the case. The court ordered the superintendent to the effect that the patient could not be allowed to leave there in a week. Counsel for Col. Watts said he would appear for trial on the new date for which it is set and the court ordered all cases on the docket growing out of the incident be continued for trial on the same day.

Postponement Of Big Fraud Cases

(By The Associated Press)
NEW YORK, Feb. 6.—Benjamin and Harry Morse, scheduled to go on trial in Washington today with their father, C. W. Morse, their brother, Ervin, and another defendant, for alleged war frauds, were arrested by a department of justice agent at the Pennsylvania terminal today.

POSTPONEMENT OF CASES IS FORECAST
(By The Associated Press)
WASHINGTON, Feb. 6.—Postponement for a month of the trial of C. W. Morse and eleven others for conspiracy growing out of wartime shipping contracts, was forecast by attorney C. W. Morse and for the government today before the case was called on the docket of the District of Columbia supreme court.

Mrs. A. L. C. Birchhead, of Proffit, Va., spent Sunday with her former student, Mrs. W. Dan Cooper, at her home on Patton street.

Miss Maria Westbrook underwent an operation for removal of tonsils at the General Hospital this morning.

Proposed Medical College By U. Of N. C. Draws Fire

(By The Associated Press)
RALEIGH, Feb. 6.—The proposed establishment of a medical college by the University of North Carolina drew fire in the House of Representatives when Representative Everett, of Durham, introduced a bill which would amend the laws to allow the trustees of the University to transact such business as special meetings, as at the annual session of the board. Mr. Everett, after moving immediate consideration, explained that its purpose was to make valid any act of the board which will meet on Feb. 23rd, for further consideration of the proposed medical school. Representative Murphy, of Rowan, demanded to know if the bill would take away the power of the assembly concerning location of the college. A negative reply was given. Representative Bowie then submitted an amendment which provided that the act in no way permit the trustees to locate the school.

Rhine Forces Will Not Reach Savannah Today

(By The Associated Press)
WASHINGTON, Feb. 6.—A radio-gram to the War Department from the transport St. Michel, bringing home the American forces from the Rhine, said the ship would reach the L. I. City dock at Savannah at 11 a. m. tomorrow and would dock by one p. m.

Newfoundlanders Badly Caught This Year by Early Freeze Appeal for Help.

(By The Associated Press)
CURLING, N. F., Feb. 6.—The winter months, always a period of privation for the scattered population of the western shores of Newfoundland, from this year as a terrible menace to the herring fishery along this coast. With months of winter still to come, the government of the Colony already has been called upon to relieve the hunger of the hamlets that dot the coast from Bonne Bay north, due to the partial failure of the herring fishery last fall, and the freezing in of the herring fleet before the fish could be taken to market.

The first disaster to the herring fishermen was the falling off in the catch to less than half of last year's pack. At Bay of Islands, center of the herring industry on this coast, the pack for 1932 was only 3,000 as against 25,000 barrels for 1931. This fact alone spelled a lean winter for the fishermen who depend on the money paid them by the packers to tide them over the lean season, the most productive season. But worse was to come.

Soon after the first of December extreme cold set in, unprecedented for the season even in these latitudes. The herring fleet, setting out to convey the herring pack to the outside markets, was caught off guard and frozen in at Bay of Islands. The packers, with their season's output on their backs, were unable to pay the fishermen. The latter, in turn, were unable to lay in their winter food supplies. To make the situation appear worse, if worse could be possible, the demand for herring "on the outside" has been stronger this winter than usual, and good prices could have been obtained from the pack had delivery been possible.

The Newfoundland Government, appealed it for assistance when the men were first seen, lost no time in responding. The steamer Sagara was sent from St. John's and succeeded in saving 100 of the 200 fleets of nets that had been frozen in. Of the remaining 50 fleets sank with the weight of the herring on them, and 50 more could not be reached. The Canadian Government was appealed to and the ice-breaker Stanley was sent up to Bay of Islands, but she was too late. After a desperate effort to break through the ice barrier the Stanley gave up the last and steamed south.

Seven schooners loaded with herring are now solid in the ice, to remain until Spring. In their holds are thousands of barrels of cured fish, the fruit of a season's labor. Some of the pack is such that it is possible to get it transported to a railroad for shipment to market. Heavy snowstorms and bitter frost have put up the Newfoundland Railway for long periods.

Newfoundlanders, familiar with the tragic history of the shore fishermen, say that the worst coast faces the darkest days in the annals of the Colony. The hope of relieving the fishermen is rendered more difficult by the complete suspension of land and water transportation to their section by the heavy winter. Cargoes of food supplies are piled up at this place and Port aux Basques, while coasting vessels have cancelled their sailings because of the ice barrier.

DR. GREENFELL TO SPEAK
(By The Associated Press)
DAVIDSON, N. C., Feb. 6.—Dr. Wilfred T. Greenfell, missionary and explorer, will speak to the Davidson College student body in Sherar Hall Wednesday night, February 7. It was announced today that Dr. Greenfell will speak on "Though Ice and Snow in the Labrador."

Nurse Beats Indigestion After Seven Years

"Dear Sir:—After having used Mentha Pepsin and obtained such good results, I feel it my duty to express my gratitude to you for your wonderful preparation, which has entirely cured me from indigestion which I have been troubled with for the past seven years.

I shall recommend Mentha Pepsin wherever I go so that others may be benefited as I have been. It was a great drawback to me in my profession when I suffered with these attacks of indigestion. I felt greatly relieved after taking the first bottle and by the time I had finished the third bottle, I can gladly say that I was cured of my old enemy."—Mary E. Burton (Professional Nurse). Bridgeton, N. J.

Don't suffer another day from gas, sourness, acidity, belching or chronic indigestion. Don't let headaches, nervousness and dizzy spells keep you feeling miserable. Get a bottle of Dore's Mentha Pepsin at any good drugstore—it banishes stubborn stomach troubles forever.—adv.

HOW IS THE COAL HANGING OUT?

Still lots of cold days in store—how is your store of heavy weights?

We make it a business to be prepared to fill out our customers needs on fill ins—so that no matter whether it's a pair of woolen hose or shirt to fill out a suit of underwear—it's here—any time you need it.

Warm Suits and Overcoats
Warm Union Suits,
Warm Shirts and Drawers,

N. Carolina Looks After Its Roads

A fine example of the care which the authorities of North Carolina pay to the improved roads is reported by motorists who within the past twenty-four hours have come in over high-frozen hills. A few hours after the snow had ceased to fall a force of men began clearing it off the concrete road between Danville and Ruffin. Two trucks being attacked by the snow plow which cleared the surface. A good stretch of the road had been cleared before the sleet had begun falling today. On the dirt roads also a force of men are at work removing the snow quickly so that the surface will be spared from the abundant water which would permeate it when the thaw sets in.

FLANNEL NIGHTIES RETURN AS SILK UNDISAPPEAR

ATLANTIC CITY, Feb. 6.—Miss Katherine Moran, advertising manager for a firm of underwear makers of New York, declared here today that the flannel "nightie" is enjoying a popularity greater than ever before since steam heat first put daily gowns of flimsy materials into favor.

"Judging from the immense sales of flannel undies," the shik garment must now be carefully folded up and put away to await summer days," said Miss Moran. "Not for years has there been such a heavy demand for flannel 'nighties.' Perhaps the coal shortage has something to do with it, but the fact remains we have great difficulty in keeping up with the demand this year for the flannel carnivals."

—P. G. Ragland, who fell and broke a rib several days ago, is rapidly improving and is now able to sit up. It will, however, be a week before he is able to be out again.

Easy! Quick! "Gets-It" for Corns

Everybody, everywhere needs to know what millions of folks have already learned about

"Gets-It" the guaranteed painless corn and callous remover. Any corn, no matter how deep rooted, drops quickly when "Gets-It" arrives. Wonderfully simple, yet simply wonderful, because all soreness stops with the application. Get rid of your corn and wear shoes that fit. Costs but a trifle—everywhere, nothing at all if a sale. E. L. Lawrence & Co., Inc., Chicago. "Gets-It" is sold in this city by Mr. C. C. C.

DIXON MAKES CONFESSION TO GET INTO PEN

(By The Associated Press)
NEWPORT NEWS, Va., Feb. 5.—Further examination into the confession of James Dixon, who told officers at Williamsburg a few days ago that he had a hand in the robbery of the Toano Postoffice two weeks ago, convinced one officer who has been handling the case, that very little reliance can be put in his admissions. The officer is of the opinion that Dixon made a confession that he might be used to the federal prison where he could receive medical treatment for a disease from which he is suffering. Dr. D. J. King was called in on examination round Dixon suffering from a painful malady that needs urgent attention.

It has been found that Dixon was in Norfolk working for the Salvation Army at the time of the Toano robbery. The officer investigating the robbery and of the case says he learned Dixon made the statement over here that he would like to go to the federal prison because he heard they had a fine hospital connected with it. Dixon confessed to officers in Williamsburg that he entered two garages in Toano on the night of the postoffice robbery and it is for this infraction of the law that county officers are holding him. A change case and Ponce Officer Saunders is of the opinion that his prisoner is "nutty." Little credence is being put in his confession of the robbery of the postoffice.

TEN-MINUTE RELIEF FOR INDIGESTION

Indigestion and its attendant ills such as dyspepsia, heart-burn, sour stomach, gastric pain, dysentery, diarrhoea, colic, cholera morbus, chronic constipation, gas, etc., and even sick, nervous headaches are directly traceable to disorders in the digestive organs and can now be quickly relieved with one cordial called "Anti-Perment," originated by a druggist and recommended by physicians.

The food sours before it is fully digested, thus putting into solution toxic poisons which are absorbed into the system, irritating the intestines and setting up inflammation. To avoid this, you simply have to prevent fermentation by using Anti-Perment. Anti-Perment neutralizes the acid condition of the stomach, cleanses and sweetens the bowels, soothes and heals the inflamed intestines and increases the flow of gastric juices, giving quick and certain relief. Get a bottle of Anti-Perment from your druggist with a guarantee of satisfactory results or money returned. It will improve your appetite, give you restful sleep and make you feel better than you ever left in your life.—adv.

If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small and You are on the Road That Has Convinced Thousands

SENT FREE TO PROVE THIS

Anyone ruptured man, woman or child, should write at once to W. S. Rice, 889-B Main St. Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and then the muscles begin to tighten, they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and even danger to your life? Why not get a little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt, nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try. Write at once, using the coupon below.

"ALL-GONE FEELING IN PIT OF STOMACH!"

Wilkes-Barre Man Takes Paw Paw Tonic and Finds His Way Back to Health

Paw Paw Tonic has given health to men and women all over the United States. If you feel weak, run down, depressed or nervous, you should not be without it.

How Paw Paw Tonic relieved the suffering of a man in Wilkes-Barre, Pa., is told in a letter from Charles Taylor, of 161 State Street, that city. Read it:

"For many years I suffered from what may be described as 'all-gone feeling' in the pit of the stomach. My appetite was very poor; my strength and vitality were leaving me. Nothing seemed to help me, even though I had many prescriptions compounded and given to me by physicians of high medical standing.

"One day, while in the drug store, I talked with the gentleman who was exhibiting Paw Paw Tonic and giving health talks on diseases common to every one. I became interested and expressed my case to him.

"He suggested that I purchase a bottle of Paw Paw Tonic and take it according to directions. I gladly bought the Paw Paw Tonic because I was willing to try anything for relief. I faithfully took it for a little over a week and now report that my appetite is now first class.

"I have no trouble with my stomach or bowels. I feel, in fact, stronger in every way than in years. My vitality and general mental and physical health have greatly increased, and I thank the Paw Paw Tonic for showing me a way to health.

"This might just as well be your experience as that of Charles Taylor. Why don't you try Munyon's Paw Paw Tonic? It costs only \$1 a bottle and you can get it at any first-class drug store. Buy a bottle TODAY!

Sold in Danville by Frank R. McFall and all other up-to-date druggists.

BRIDESMAIDS AT DUKE OF YORK'S WEDDING

These four girls, selected from the cream of English society, will be bridesmaids at the approaching marriage of the Duke of York, second son of King George and Queen Mary, and Lady Elizabeth Bowes-Lyon. Left to right, Lady Mary Cambridge, eldest daughter of the Marquis of Cambridge, Princess Maud, daughter of the late Duke of Fife, Lady Doris Gordon-Lennox, daughter of the Earl of March, and Lady May Cambridge, only daughter of Princess Alice and the Earl of Athlone.

Leaking Valves Caused Blast

(By The Associated Press)
NEWPORT NEWS, Va., Feb. 5.—A leaking valve leading from the hydrogen tank into the compressed air compartment caused the explosion of the tank at the helium gas plant at Langley Field, which resulted in the death of Benjamin M. Johnson and injuries to several other men Saturday morning according to the investigation board of which Captain Butler was the chairman, completed its inquiry this afternoon and reached the decision that the leak in the hydrogen valve was the direct cause of the explosion. The hydrogen gas into the compressed air tank and the explosion followed. The leak, it was said, was an extremely small one and was found in the valve leading from the hydrogen tank to the compressed or liquid air compartments.

The board also found that the damage to the building will not exceed \$10,000.

Dr. Moore and Dr. Shaw, of the bureau of mines, accompanied by John Luening, an expert engineer from the air service in Washington spent Sunday and today at Langley Field assisting the board in its investigation.

It is understood that plans will be immediately made for rebuilding the wrecked plant and that the helium gas will be manufactured from this plant as soon as the building and machinery can be put back into condition.

FIRES IN DUBLIN INCENDIARY

DUBLIN, Feb. 5.—There were several cases of incendiaryism reported Sunday night. The residence of sub-sheriff Russell near Dundaalk and that of Col. Eustace Maude at Troide Wicklow, were destroyed under the usual circumstances. The families were turned out of their beds into the yards and under the guns of the marauders until the destruction of the houses had been accomplished.

Dr. George Sigerson, member of the Free State who resigned his seat today, said he had received a threat that his house would be burned. He did not care for himself personally, he said, but he must have regard for his family and their property.

PARENTS ARE BURIED

(By The Associated Press)
SUFFOLK, Va., Feb. 5.—Thomas Ferguson and his wife, who died Saturday at their home at Newsum, were buried yesterday in the same grave, while their entire family of seven children lay nearby in ill health. The children have not yet been advised of the death of their parents.

MR. MILLER SAILING

E. H. Miller, old and well known citizen, is now basking in the balmy temperatures of the tropical seas and isles. At least, a few days ago he was at Port Antonio, Jamaica, "fingering up" for the rest of his cruise. He was pleased with the Jamaican harbor, but did not mention seeing any other worshipers, and expected to motor schooners and other ships—marshes across the island next day. The Danville traveler is doubtless patting himself on the back shaking hands with himself, or will be, when he learns of the speedy arrival of winter here in such force and demonstrativeness. For a gentleman now past four-score, Mr. Miller is unusually young and active and is thoroughly enjoying his trip.

LIMITED TRAIN IN REAR CRASH

(By The Associated Press)
FORT PIERCE, Fla., Feb. 5.—The Palm Beach Limited of the Florida East Coast railway, southbound from Jacksonville to Miami, crashed into the rear end of an extra freight train here late today, resulting in slight injuries to the fireman and engineer. All the passengers, including a lady and a child, escaped injury. Traffic probably will be delayed for ten or twelve hours it was said as the track is torn up for a considerable distance.

HEAVY SNOW IN 10 YEARS FALLS IN TENNESSEE

(By The Associated Press)
CHARLOTTE, N. C., Feb. 5.—With Eastern Tennessee experiencing what is described as the heaviest fall of snow in ten years, Virginia under a mantle of snow from mountains to coast, western North Carolina points reporting three to five inches of snow and other portions of the state below freezing temperatures and Georgia expecting freezing weather during the night, the storm which has affected many sections of the country during the past two days is being felt tonight throughout the southeast. Florida alone seems to be escaping the effects of the cold weather, but even there slight coldness is being felt. The weather, though with no prospects of freezing temperature.

Johnson City, Tenn., reports that section has having experienced a fall of 8 inches of snow in the past 36 hours, the heaviest since the winter of 1906-07. A temperature of 30 degrees at 8 o'clock tonight is reported with predictions of a further drop in temperature before morning.

Rain and sleet have been falling over North Carolina today, the eastern sections reporting rain with freezing temperatures, the central counties experiencing sleet and the western sections heavy rain. Asheville and Hendersonville snow was reported while Wilmington on the other hand reported only a cold rain with a thermometer hovering a round freezing.

The low ceiling and precipitation is for much colder weather by morning with snow or sleet during the night.

At 8 o'clock reports from sections indicate a thermometer reading between 30 and 35 degrees with cold winds prevalent in some sections, but the fall of sleet and snow seems to have ceased.

FARRAR WANTS DIVORCE TRIAL HELD PRIVATELY

(By The Associated Press)
NEW YORK, Feb. 5.—Supreme Court Justice Cohlman will be asked tomorrow to rule whether the national divorce hearing will be held in private or in public. The divorce of Lou Pellegrin shall be unrolled before the public or the petition of the divorce for a divorce be thrashed out in a referee's office behind closed doors.

Today's hearings were interrupted when newspapermen requested Thomas H. Mahoney to permit them to attend the session. The referee said he saw no reason why the hearing should not be public unless Justice Cohlman, who referred the case to him, desired otherwise, but he announced that he would entertain a motion for privacy.

Farrar's lawyer promptly petitioned for secrecy and adjournment and they until the matter could be placed before Justice Cohlman.

R. T. AND P. DECLARES 100 PER CENT STOCK DIVIDEND

(By The Associated Press)
RICHMOND, Va., Feb. 5.—Stockholders of the Richmond, Fredericksburg and Potomac Railroad at a meeting here today, approved the action of the board of directors in declaring a stock dividend of 100 per cent and directed the officers to proceed immediately with an application for an amendment to the charter to absorb the increase in capital. The state of Virginia owns 2,722 shares of the common stock and approximately \$500,000 par value of the road's dividend obligations.

LOVE AND DUTY—DUTY WINS

MEMPHIS, Tenn., Feb. 5.—Duty is sending Miss Ethel Canary and Arthur Thompson Tyler, sweethearts, into the heart of the South American level test and love SHALL NOT hold them back.

This is their pronouncement on the eve of sailing as South American Missionary Union workers. The union will not permit the marriage of its apostles for two years after entering the field.

But after the two years—

"Love is the same in the wilderness as in the palatial houses of wealth and comfort. The more love is surrounded by hardship and suffering, the stronger it should become.

After the two years, we will marry."

Miss Canary, a Memphis girl, and Tyler, whose home is in Worcester, Mass., have been engaged stations apart among the half-savage lepers of Brazil.

And if the health of one fails—

Then says Miss Canary with simplicity, "The engagement will be broken. The one who fails will continue. We have dedicated ourselves to this work. Nothing shall swerve us."

BRIGHTWELL-HYLER

On Saturday afternoon February 3, a party motored to Yanceyville, N. C., where Miss Florence Brightwell became the bride of Mr. James Hyler. Both are from near Richmonds Hall, N. J. J. Soyars, pastor of the Baptist church of Schoolfield performed the ceremony.

The bride is considered one of the most beautiful and attractive young ladies in the entire section surrounding her home.

The groom is an enterprising young farmer of near Danville.

Only a few guests witnessed the quiet but beautiful ceremony. Among those were Misses Lottie and Bessie Hyler, Messrs. Luther Royall, John Hyler, Harry Taylor and Smith Fulton.

Immediately after the ceremony the young couple returned to the city where after many congratulations they left for a bridal tour of northern cities. After their return they will make their home at Richmonds Hall.

Public Links Golf Match June 26-28

WASHINGTON, Feb. 5.—Public Links golf players here are all set for the National Public Links Tournament, which the United States Golf Association has dated for June 26-28, at the East Potomac Golf Course here. Nearly thirty hundred players are expected to come for the event from all sections of the country.

The East Potomac Park Course has a ready a big blue-and-white pennant, which will be presented to the public links course whose players can win the big event. The pennant will be flown here for the first time when the course is opened.

Lieutenant-Colonel C. O. Sherrill, in charge of the Department of Public Buildings and Grounds, has directed a lot of work this winter on the course where the public links championship will be decided.

New nine holes will be laid, for the tournament when the championship pennant will be run up on the thirty-foot flagpole beneath the Stars and Stripes. The big American flag was raised last fall by Colonel Henry May and Major Edward Fives, who organized the first golf in the District of Columbia more than thirty years ago. The flag was raised in honor of the availing of the national tournament to the course.

Confederates who participated in last year's tournament at Toledo and St. Louis, are both out of the tournament next June, one has returned to the States and the other having turned professional. As they are both golfers of the first class, then being out makes the picking of a winner the most open sort of proposition in the world. "We can almost make the Lincoln Memorial at the Washington Monument in two," will be begun in March.

Speedy Action On British Debt Is Expected by Many

(By The Associated Press)
WASHINGTON, Feb. 5.—Administration leaders in all branches of the government expressed confidence tonight that speedy and favorable action would be taken by Congress on the British debt funding settlement once it is submitted by the President. While it was generally admitted that opposition to the plan would develop considerable strength, administration spokesmen argued that a free discussion of the plan would win support for it both in Congress and throughout the country.

The President was understood tonight not to have definitely determined whether he would present the plans for Congressional consideration personally, or would send it to the Capitol with a brief statement of his views. Although there were indications pointing to the latter course, it appeared probable that the question would be turned over to Congress tomorrow, but there was not definite decision on this tonight. Some were of the opinion that the plan would be introduced on the floor in which they would seek to obtain Congressional sanction to the funding commissions work.

President Harding was said to have been engaged much of today in drafting his views on the plan preparatory to laying them before Congress. He held numerous conferences with administration leaders, from the cabinet and talked over various phases of the plan and a discussion between the British and American commissions with several members of the American commission, including Secretary Mellon.

The information thus supplied it was said, was being employed by the President in his argument for ratification of the terms by Congress.

Bette Method To Feed Elk Is Urged

CHEYENNE, Wyo., Feb. 5.—The State of Wyoming is all wrong, or nearly so, in its system of feeding wild elk in the famous Jackson Hole country, according to Representative W. C. Deloney, of Lincoln county, who desires the appointment of a legislative committee to go to the elk country and look into the matter.

Deloney's legislative hobby is game protection. He lives in the heart of the big game region. He believes that the State's feeding, designed to tide the elk herds over periods when natural forage is too deeply covered with snow to be accessible, is not begun until it is too late to save many of the elk. By the time the State begins providing hay for the elk, he stated in an illuminating speech to the House, many of them are too far gone from starvation to be saved by the delayed aid so weak from hunger that they fall easy prey to coyotes and other predatory enemies. He believes that a study should be made of the feeding problem and a system adopted whereunder feeding would begin in ample time and be continued until spring is sufficiently advanced for the elk to subsist without assistance.

The present feeding system, Representative Deloney stated, not only results in the loss of great numbers of elk that should be saved, but in loss to the ranchmen of the Jackson Hole country. The elk, driven to desperation by hunger, raid the ranches and consume large quantities of hay stored in stockmen for the consumption of domestic stock. If State feeding was begun in proper time, he pointed out, these desperate raids would not take place.

No action was taken on Representative Deloney's suggestion for an investigating committee, but he will bring the matter up again later.

LEGION BACKS FRANCE IN RUHR OCCUPATION

(By The Associated Press)
NEW YORK, Feb. 5.—The American Legion does not hesitate to declare its sympathy with France in its occupation of the Ruhr, Alvin Owsley, National Commander of the Legion, said today at a luncheon meeting of New York Advertising Men's Post.

Commander Owsley declared that some of the Legion posts in New York were "too lukewarm" in the statement of Legion purposes and aims.

"The Legion," he said, "is the all-American organization, untouched by any political party, creed or faith. Let there be one organization that will rise above party opinions and do things all-American.

"The Legion rises above the ambition of any man or group of men. There isn't power enough in all this nation to stay the power of this organization when we stand together."

CUTICURA HEALS TETTER ON SCALP

Also Ringworm On Face; Very Sore, and Itched, Hair Came Out.

"My face was in a very bad condition with ringworms, and tetter broke out on my scalp. The ringworms were very sore and itched a great deal. My face looked so badly that I was ashamed to look at it. My hair came out in handfuls, and became lifeless and dry.

"The trouble lasted several years. I sent for a free sample of Cuticura Soap and Ointment. I purchased more, and after using four cakes of Soap and six boxes of Ointment, I was healed." (Signed) Mrs. Edna Fredow, Box 24, Magnolia, Va.

Keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes and Cuticura Talcum to powder and perfume.

Sample sent free by mail. Address "Cuticura Laboratories, Dept. H, Malden, Mass." Goldcren, Boston, Mass. Send 3¢ for Cuticura Soap shaves without soap.

GOLDBERG'S CARTOONS FOR THE BEE READERS

We take pleasure in announcing that the famous cartoons of R. L. Goldberg will appear daily in The Bee beginning Monday Feb. 12.

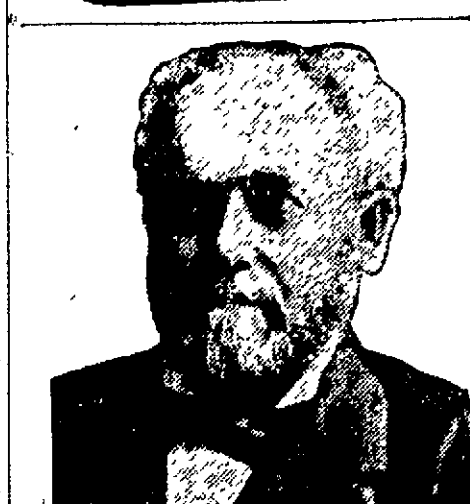

R. L. Goldberg.

Mr. Goldberg has been one of the highest paid of all newspaper artists for ten years, and we believe that our readers will be highly entertained by his cleverness and originality. His work is unique. He has never borrowed an idea from any other cartoonist and his style is altogether his own.

Mr. Goldberg has originated many famous series, including Foolish Questions, Father Was Right, They all Look Good When They're Far Away, and the Tuesday Ladies Club. Among his present day successes are Life's Little Jokes, Think of This Guy, and Radio Ravings.

Look for the cartoons beginning, February 12th.

—W. R. Hudgins, fireman at Patton street station was operated upon yesterday at General hospital for appendicitis and last night his condition was reported as very favorable.

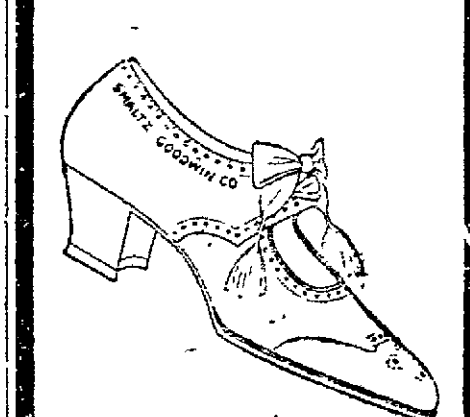

A Successful Man.

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a Prescription which has never been equalled for the weaknesses of women. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all thru treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headaches, weakening pains, and for the many disorders common to women in all ages of life. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in both tablet and fluid form. Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial pkg. Write for free medical advice.—adv.

"Snappy All-round Model."

In combination Patent Vamp Dress Shoe also in "Lamp" and silk, lace to match. A very pretty Spring pattern. Price \$10.00.

Because of their attractiveness many women will demand "Thompson's" styles for Spring. On any occasion your feet will look their best shod in one of our new creations.

Wedded to 2 Men, Woman Sues Both

MORRISTOWN, Pa., Feb. 5.—For the first time in the history of the local courts a woman has started a suit to be divorced from two legally wedded husbands. The woman who is asked the Court to rid her of both of them is Mrs. Lillie Koehler, of this place.

According to the story which she told the Court, she first married William Koehler, whose name she uses, in January, 1896. Eight years later, she says, he deserted her and that for the next six years she did not hear from him. Believing him dead, she then married George Gaston. In 1917 she received reliable information her former husband was living. She then separated from Gaston. Since that time they have not lived together. Now Mrs. Koehler wants to be legally freed of her marriage to both of them.

SENATE TO TAKE UP RIVERS AND HARBORS BILL

(By The Associated Press.)
WASHINGTON, Feb. 5.—Rivers and Harbors appropriation in the annual army supply bill increased by the House nearly \$20,000,000 over the budget estimate, is to be taken up by the Senate tomorrow with a sharp conflict in prospect although indications are said to favor concurrence in the House action. The amendment of Senator Norris, Republican, Nebraska, to appropriate \$2,000,000 for development of the fertilizer plant at Mussel Shoals, Ala., may also be reached tomorrow. Rapid progress was made today on the pension provisions, all committee amendments being disposed of. Among other committee amendments adopted was one increasing from \$485,000 to \$1,000,000 the provision for construction and maintenance of military post roads in Alaska.

Prevent Influenza

The Tonic and Laxative Effect of Laxative BROMO QUININE Tablets will keep the system in a healthy condition and thus ward off attacks of Colds, Grip and Influenza. The box bears the signature of E. W. Grove.

STOP ITCHING SKIN

Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that Irritations, Pimples, Blackheads, Eczema, Blisters, Ringworm and similar skin troubles will disappear.

Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove it

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

MAN WHO VANISHED FIVE YEARS TELLS HOW TO HIDE

(Special to The Bee)
BUFFALO, Feb. 5.—Where do people go when they vanish? With police on the trail, rewards offered, the chase hot, an alarm raised—where do missing persons hide?

John T. Ryan, who hid five years, says:

"The best way to hide is not to hide at all."

"A clever person who wants to disappear sticks to the big cities and never wears disguises."

"Disguises make one conspicuous. It's pretty hard to hide in the country and the small cities you can get around being perfectly natural—the man living across the hall doesn't know who you are, and doesn't care a rap."

"Big cities are easy to hide in because the stranger never attracts attention—and there isn't any gossip."

Ryan ought to know, because he not only vanished for five years, but the police of the entire country will as the secret service of the United States and Great Britain, were looking for him.

Government circulars were sent broadcast, bearing his picture and his description, and offering a reward of \$250 for information leading to his apprehension. And a federal indictment hung over his head.

Ryan recently returned to Buffalo, after having been missing since May 7, 1918. The indictment against him was dismissed last fall and he has been officially cleared of every accusation against him.

"I made no particular effort at concealment," said Ryan, who is a lawyer and must earn his living by the sweat of his brow in the law.

Rapid progress was made today on the pension provisions, all committee amendments being disposed of. Among other committee amendments adopted was one increasing from \$485,000 to \$1,000,000 the provision for construction and maintenance of military post roads in Alaska.

Growing Use Of Gasoline Might Drain Reserve

WASHINGTON, Feb. 5.—The neck-and-neck race between gasoline production and consumption in the United States continues unabated, according to officials of the Bureau of Mines, who are viewing it with undisguised perturbation.

Despite the record clip at which gasoline is being produced the demands of the nation's millions of internal-combustion engines are maintaining consumption at a dizzy pace, according to the bureau, and this, officials declare, is sufficient cause for the gravest uneasiness felt over the slim prospect for a reserve supply when the much-forecast petroleum shortage arrives.

Figures Cited
The latest monthly figures available are for last November, showing a gasoline production of 58,109,921 gallons and a consumption of 470,643,173 gallons. The output, the bureau said, was unusually large, an excess of 1,900,000 gallons over the October figures, and a 21.1 per cent. increase over the output for the preceding November.

On the other hand, it was pointed out, the consumption figures for last November represented an increase of 34.09 per cent. over those for the same month of the previous year, were 19,000,000 gallons below the October figures, attributable to the advent of the winter season and unfavorable motoring weather.

Gasoline stocks on hand on December 1 last totaled 78,722,619 gallons, an increase of 53,000,000 gallons during the month. Exports of gasoline in November were 41,085,149 gallons, while shipments to insular possessions aggregated 2,533,642 gallons.

Refineries Busy
During November 206 refineries were reported operating, running through their mills a daily average of 1,473,429 barrels of crude oil and 157,922 barrels of other oils. The daily indicated capacity of these refineries was 1,869,820 barrels, an increase of 1.77 per cent. over the previous month. Total oils run to stills in November showed an increase of 2.85 per cent. as compared with October.

Production of kerosene in November amounted to 254,426,273 gallons, an increase of 19,000,000 gallons over the figures for October and 59,000,000 gallons in excess of the November, 1921, figures.

The output of gas and fuel oils in November totaled \$91,590,171 gallons, a decrease of 30,000,000 gallons from the October production, but an increase of 2,000,000 gallons over the production for November, 1921.

Stocks of these oils on December 1 amounted to 1,352,347,667 gallons, a decrease of 14,000,000 gallons during the month.

Production of lubricating oils in November was \$9,270,547 gallons, a slight increase over the October output and an increase of 8,000,000 gallons over the November, 1921, production. Stocks of lubricating oils on hand on December 1 were 226,425,337 gallons, an increase of 9,000,000 gallons during the month.

MEAT
KANSAS CITY, Feb. 5.—The warm weather here has been responsible for a decided slump in demand for meats according to packers here today.

JOHN T. RYAN

a clear conscience. I had that. Perhaps the person with a troubled conscience gets caught so often because of the slips he makes due to that reason—trying too hard to act natural and betraying himself by the falsity of his manner.

Another Storm Brewing in West

(By The Associated Press.)
WASHINGTON, Feb. 5.—Relief from the cold wave in the Ohio and Middle Mississippi Valleys tomorrow will be of brief duration, according to the weather bureau which predicted tonight that low temperature would return to that section Wednesday.

When the warmer weather is due to reach the middle and north Atlantic States.

Snow also was forecast for the Ohio Valley, the lower Lake region and the middle and north Atlantic states by tomorrow night or Wednesday, with rain probable in the Southeastern section.

Little change in temperature was predicted for South Carolina and Georgia, but indications pointed toward colder weather for section of Florida tomorrow.

"The disturbance over the eastern Gulf of Mexico has remained almost stationary, rain has continued in the South Atlantic states and along the east Gulf Coast, and the temperature continued to fall Monday in the Atlantic states south of Pennsylvania."

The weather bureau statement said: "There will be much cloudiness over the states east of the Mississippi River during the next two days and rain is predicted in the Southeastern states Tuesday and Wednesday, and snow in the Ohio Valley and in the middle and north Atlantic states by Tuesday night or Wednesday, the statement said. It added that the temperature will rise slowly in the lower lake region and the Ohio and lower Mississippi Valley Tuesday and in the middle Atlantic and north Atlantic states Wednesday but colder weather will again envelop the Ohio and middle Mississippi Valley Wednesday."

The storm warnings remain displayed on the Atlantic Coast from Cape Hatteras to Atlantic City.

HOMELESS MEN STUDENTS AT HOBBO COLLEGE

CHICAGO, Feb. 5.—A throng of homeless men taught to write sentences by a lone woman is the unusual spectacle presented every Monday evening at the Hobbo College here. The college is directed by a cabinet of nomads elected by the men themselves.

The teacher is Mrs. Frances Donovan, a resident of Hyde Park and author of "The Woman Who Waits," a study of waitresses' life and conditions. She is aided by a group of men and her task is to command the interest of her pupils.

Two of the most interested pupils are "Scotty," a man of middle life and his son, a much younger youth. "Scotty" has a bald head, keen eyes, and "hoes spattered with mortar" for he is an itinerant bricklayer as well as a student. His speech is laced with such words as "fruits" and "cereals" and is seasoned with an occasional homely Scottish phrase, redolent of the hearth.

"I have my own lesson," he told a visitor. "I take such words as 'fruits' and 'cereals' and write synonyms and metaphors for them, and then compose poetry (short) sentences, calculated to make a good impression."

One of the few nomads who has remained in attendance since the college opened last autumn is a gaunt, bearded drifter. "I am one of the 'homeless' men," he says defiantly. "I like the philosophy of the doughnut; the bigger the doughnut, the bigger the hole."

His state has been equipped with odds and ends gathered by the pupils and plays were produced at the college until the director felt the pangs of starvation and went to work.

PELLEW WILL ACCEPT TITLE

(By The Associated Press.)
WASHINGTON, Feb. 5.—Charles Ernest Pellew, only surviving son of Henry Edward Pellew, who died here last night, announced he would renounce his American citizenship and return soon to England to sit in the House of Lords as Viscount of Exmouth, a title inherited last August by his father.

Mr. Pellew, who is 59 years old, was born in England, but came to this country as a youth with his father, serving as a captain of volunteers during the Spanish American war. He was for many years a professor of chemistry at Columbia University, residing since his retirement in New York City. His wife was Miss Margaret Chandler, of New York.

Henry Edward Pellew was 84 years old when he inherited the British title through the death of a great nephew. He had announced he would renounce his American citizenship and return soon to England because of his advanced age, reserving his rights as an American citizen. He was married to Miss Elizabeth Pellew, daughter of John Jay, first Chief Justice of the United States and upon her death was married to her sister, Miss Augusta Jay. He was the grandson of Edward Pellew, first Viscount of Exmouth, and successor to Lord Nelson as Vice Admiral of England.

Mr. Pellew has resided in this country almost continuously since 1871. He will be buried here.

Savannah Ready To Welcome U. S. Overseas Troops

(By The Associated Press.)
SAVANNAH, Ga., Feb. 5.—With hundreds of volunteers ready to join the celebration, Savannah is ready to welcome the troops who will arrive Wednesday aboard the Transport St. Michel from the "Watch the Rhine." A half holiday has been declared by Mayor Seabrook, the city has been decorated with flags and plans completed for entertaining the arrivals.

Although the St. Michel was scheduled to arrive here at seven o'clock Wednesday morning, the exact time of arrival is uncertain, according to a radiogram from the transport's commander was to a opinion the ship would not arrive at the Savannah light house before one o'clock Wednesday afternoon. When the transport crosses Tybee Bar, she will be met by the coast guard cutter Yamacraw, which will escort the St. Michel to the dock. Aboard the cutter will be Mayor Seabrook and a number of other while members of the American Legion and representatives of shipping interests at the harbor are planning to meet the transport in tug.

A reception committee including Governor Thomas W. Hardwick, Mayor Seabrook and a number of prominent Savannahians and army officers will officially welcome the troops at the dock.

Reception plans provide for special attention for the German wives of many of the soldiers and for the children. Several of the men aboard the transport are reported on the sick list, while two are in confinement. It is planned to provide special care for these.

A barbecue for the enlisted men and their families, arranged by the merchants of Savannah, is on the afternoon program to follow a parade of troops assigned to Fort Screven, near here. Motion picture theatre men of the city have announced they will admit to the theatre of the retraining all men in uniform. Refreshments provided by various merchants and dealers will be distributed to the troops by members of local patriotic organizations.

Immediately after the barbecue the soldiers who will be stationed at Fort Screven numbering about 400 with their families will entrain for the fort. A check of the house of the retraining officers is planned as the event of the evening. The public has been invited to the banquet. Prominent men of Georgia including many state officials and army officers, will be at the speakers' table.

The St. Michel has aboard 908 enlisted men and officers, 74 German wives and 24 children. The German mothers-in-law are being housed in the barracks. The transport is expected to dock Thursday at Charleston, S. C., where a group of officers are to be landed, after which the St. Michel will proceed to New York.

During the course of his address, the Governor said "when I first began to make co-operative speeches I had no idea of the value of fruit co-operative associations of California and other states as a basis for my statements but now I am very glad to see the people of the country who attend the meeting in line with all other progressive developments, that it was an absolute necessity of the times, and that to go without it meant stagnation for all agricultural business interests."

Other cases filed by the employees on a large number of roads asking pay for men while away from home because of the nature of their runs, but not on duty, also were postponed until after next October.

The board recited the fact that 55 per cent of the railways already have accepted agreements which preserve for another year the wages and rules which have been in effect since July 1, 1921.

New Contract for Mildred

One look at this picture and you've guessed why they're so happy—Harold Lloyd, film comedian, and Mildred Davis, his leading lady, are engaged, with the nuptial date set for the very near future.

GOV. T. G. McLEAD MAKES ADDRESS ON MARKETING

Special from Tobacco Growers News Bureau

FLORENCE, S. C., Feb. 3.—Although rain fell incessantly and a cold wind was blowing almost a gale this morning, the courthouse was filled to overflowing and many had to stand in the lobby and huddle under the eaves of the building to hear the address of Governor Thomas G. McLeod, who delivered one of the strongest co-operative speeches heard here in a long time.

At the regular monthly meeting of the co-operative unit of Darlington county, people from every section braved the cold in muddy roads to hear the Governor, and they were not on duty, also were postponed until after next October.

The Governor has always been an advocate of co-operative marketing and advocates that idea as the basic principle of developing the systematic handling of tobacco, cotton, potatoes and other farm products. He spoke of the great world changes, and said that co-operative marketing was the only way to meet the challenges of the future.

During the course of his address, the Governor said "when I first began to make co-operative speeches I had no idea of the value of fruit co-operative associations of California and other states as a basis for my statements but now I am very glad to see the people of the country who attend the meeting in line with all other progressive developments, that it was an absolute necessity of the times, and that to go without it meant stagnation for all agricultural business interests."

Other cases filed by the employees on a large number of roads asking pay for men while away from home because of the nature of their runs, but not on duty, also were postponed until after next October.

WILL PRESERVE WAGE SCALES

(By The Associated Press.)

CHICAGO, Feb. 5.—Preservation of existing wage scales and working rules for train, yard and engine men were employees on all the railways of the country, for another year was assumed tonight by two decisions of the United States Railroad Labor Board.

In the first decision the board postponed further action in the cases of 17 roads and nine subsidiary lines which sought reductions of wages and revisions of working rules "until some date subsequent to October 1, 1922."

A second decision also proposed for the same period of action on cases submitted on a large number of roads by the firemen's organization in which a rule was required to compel the railway to employ two firemen on the larger engines.

Other cases filed by the employees on a large number of roads asking pay for men while away from home because of the nature of their runs, but not on duty, also were postponed until after next October.

APPLYING PRACTICAL RELIGION
TO GOVERNMENT.

There is no doubt that the move-
ment, which has been started here
in Danville, looking to the application of
fundamental truths found in the Scrip-
tures to the conduct of national and
international affairs has afforded food
for the deepest reflection in many
parts of the country. This is made
clear in the numerous enquiries which
have been received here by the initiator
of the project and the comment which
has already been made on Danville's
move to securing national righteous-
ness. When we speak of it as a
"novel" project we make a grave ad-
mission and reveal how very far we
have got from spiritual leanings and
how wide the gulf is fixed between
present-day tendencies and the nor-
mal purposes of religion. There is
actually nothing very "novel" about
the application of the teachings of the
Saviour to the conduct of worldly af-
fairs. In the conduct of our private
and domestic affairs, in some crisis in
which human means of solution have
failed it is well established that we
turn to prayer for salvation. It is only
a step further to apply this same prin-
ciple to the crisis which admittedly
confronts civilization today, and espe-
cially this nation which is free from
foreign entanglements and which is
looked to as never before to lead Eu-
rope out of its present confusion.
Skeptics and agnostics will natu-
rally turn their arguments on the in-
fection of the church into affairs of
State and will again raise the cry
that it is meddling beyond its proper
domain. The argument will no, hold
good, for it is not the church per se
which is calling for the application of
these principles. The church, or those
who labor in the ministry, is the in-
strument whereby the latent fires of
religious action are being stirred, or
the spark which is arousing the con-
sciousness of a community to realiza-
tion that practical religion is dead and
that the time has come to revive it.
That is the secret of the movement
initiated here. It is not a critical at-
titude by any means, it is rather an
attitude of encouragement towards
those who are charged with the con-
duct of the affairs of state that they
apply the principles of Jesus with
greater fervor and with deeper mean-
ing that is possible through perfunctory
prayer or the usual expressions
of religious inclination. Neither can
it be said that this feeling is shared
here in Danville. It is a feeling which
is kicking somewhere in the back-
ground of thousands of people and
mumbles only it is finding here
expression as it is finding here
interest in listening for the
"ch it will produce, by sim-
ple elsewhere. It is, in the na-
tural of national consciousness
results one may be able
one is a countrywide ap-
the retrograde move-
tion and if a renais-
sance is served, or if the hu-
man race is still to be re-
served and satisfaction

Scoop's Colyum
DRAKES BRANCH, February 6.—
(Grapevine Wireless.)—Julius gets
reminiscent in the barber shop:
"I climb into the bar-
ber's chair to have him
fresco up my hair and trim
it up in style and as he
bitlyly buzzes away, he
tells me of Egypt and Cathay,
of sailing wax and tile. I
ramble to the hardware
store to buy a double-
jointed door and hair at
point of nails and straight-
way Bill, the hardware
man, begins to tell of some
fool plan for propagating
whales. No matter where
I choose to roam I encounter
the azure vaulted dome some suckers
sure to spill a lot of language wise
and punk—the most of which is ar-
rant bunk—not worth a mark a gill.
When to the teeming market place I
turn my curious wrinkled face, I do
not go to talk; and those who serve
within the shops should sell me cur-
tain poles and mops, a double-breast-
ed rock, without a lot of windy walls
about the treaty of Versailles, the ar-
rival of booty or how the French
liff on hip booty or how the French
liff on hip booty—where that place
is I'm not quite sure—or how to cap-
ture eels. Some day my patience
will give out and I will bust some
sucker's snout and spit out the fact
that for sporting forth a lot of bunk
when I would buy his mouldy junk—
"I'll take him by surprise. These
men who spout forth ravelled rill
should be condemned upon the spot
and taken from the town to where the
trees grow thick and high, and there
between the earth and sky be tethered
upside down."

Suitcase probably contained wife's
picture.
Stan says: "When you are consider-
ing matrimony don't overlook the fact
that both poverty and prosperity are
subject to change without notice."
The Power of Money is Now
Unquestioned.
(From Ft. Branch Times.)
Sixty-five bucks will induce me to
part with Liz. My Henry said:
"Don't do it. I'll let you look at it
before I take the money." R. Jackson,
411 Main St., before six.
Who Wrote This Gem?
It is not raining rain to me,
It's raining rain to me,
In every dimpled drop I see
Wild flowers on the hills.
The clouds of gray engulf the sky
And rain is falling on the town;
It is not raining rain to me,
It's raining roses down.
It is not raining rain to me,
It's raining rain to me,
Where a butterfly is dancing,
Can find a bed and room.
A health unto the happy,
A fig for him who frets.
It is not raining rain to me,
It's raining violets.
Barnum's Bug-Obey.
They were with him, my wife over me;
On my back, my pants and on my knee.
Then the harder I would scratch,
I would kill them by the hatch;
A little flea would alight on me,
And a million more would hatch.
The whole bunch made a lunch of me,
On my back, on my shirt, and E.V.D.;
Till I had to gasp for breath.
So I held my wife to death;
They went wild, supply wild, over me.
(Try this on your piano—Barnum.)
Good Night!
I've a letter in my pocket I don't want
my wife to see.
If she finds it I'll have trouble; she
will spoil the day for me.
I can't burn it, and I wouldn't dare to
throw the thing away.
What if any one should find it? There
would be a divorce a la Hay.
Here I am upon the threshold of my
happy home, alack!
I was told to mail her letter, and I've
brought the damned thing back!
Let a woman try to hide her age
and she will show it in a thousand
ways, says Dave Penn.
Strange how every year we plan our
fare to some place, and then we
stranger how quickly we forget the
ones of the previous year. This year
every one is talking about Cune and
his hard to believe that we ever looked
the same way upon the Quila board.
Apologies to Cune.
Day by day in every way
I'm getting sicker and sicker.
All I do is rave and rave.
Heer, light wine and likker.

who fills her galoshes.
FORTY-NINE INDICTMENTS.
(By The Associated Press)
RICHMOND, Va., Feb. 5.—Forty-
nine indictments charging felonies and
misdemeanors and sixty-five bills, al-
leging violation of the prohibition laws
was the net result of today's work of
the Hustings Court grand jury. Call
of the docket and setting of cases for
trial will occupy the lion of the court
tomorrow. The case of Thomas
Pollard, charged with the murder of
Mrs. Thelma Hamm Richardson, will
be called next, Monday.
SNOW REACHED FOUR
INCHES IN ROANOKE
(By The Associated Press)
ROANOKE, Va., Feb. 5.—Snow
reached a depth of four inches here
today when the fall ceased at 10
o'clock this morning. A slight raise
in temperature continued throughout
the day and the snow was rapidly
melting. In Roanoke, after 5 o'clock
a slight drop was noted in the tem-
perature which fell to 28 degrees by
7 o'clock. Travel on the streets of the
city is difficult because of the freeze.
THE ONE-MAN WOMAN—NO. 500
KATE WARD, widow of
DAN WARD, has a visitor.
CHINATOWN ALICE, who says Dan
was father her child, is
much perturbed. Wooed by
JAMES LATHAM, of whom she is
fond, yet filled with thoughts of
Dan, she does not know what to
do. Her father, Mr. Ward, is
concerning her dead husband's past.
She invites Alice to visit her. The
latter tells something of her own
life. Her father was a bandit and
her mother a woman of fine family
who eloped and married him.
GO ON WITH THE STORY
"WITH all of the hardness and de-
nial," Alice was speaking
again. "Mother remained attractive,
really lovely, until one night, father
straggled into the house and dropped
dead at her feet—dead with ten many
wounds on his body to count."
"He had been feared through all of
that section," Alice continued, "and
finally the men who feared him got
him."
"Mother became an old woman
during that last moment of father's
life. She must have loved him and
he must have loved him in spite of
his roughness and his neglect, because
suffering intense agony, he faced with
death to reach her and die near her."
"I like that memory," there was a
thrill of pride in her voice. "I'd
rather have that memory of him than
to think of him as a successful busi-
ness man content to live and die away
from his home."
"I must have been about 10 then."
Mother stayed on in the little cabin
nothing could have dragged her out
of it. How she ever got food and
clothing for the two of us I don't
know. But she did it and not once
did she complain of the struggle. She
might have gone back to her father's
home. But she didn't. They refused
to recognize her when she married.
After that she never expected any-
thing from them, though I never
heard her speak bitterly of her relatives."
"She died about five years ago,"
the words were barely audible. "She was
found dead in the cabin by a hunting
party. I hadn't seen her for two
years. I, who had been before me,
was wifely, and had started my own
career, leaving all of my family ties
behind, as so many mountain girls
do."
The thing I remember most about
mother in her later years, is stand-

Girl Bares Slave Traffic
Miss Donaldina Cameron, who has devoted her life to the rescue of
Chinese slave girls, is shown above surrounded by some of those she has
saved. In the extreme right of the picture are seen two of her American
co-workers. Insert at left shows a suite, whose story of bondage may end
the traffic.
A Chinatown Buddhist priest, a wealthy
leader and other tongmen less
powerfully.
Lim Tsun, a nervous fellow against
the fear of tong drunks and bullets, told
her story to the authorities—for the
sake of her Chinese sisters. "They
may kill me," she said, "but better
than one die than many suffer."
The slavers' scheme is simple.
Americanized Chinese go to the Orient,
they "buy wives" and they bring them
to this country, where they re-sell
them.
The slavers exact tremendous profits.
They force their victims into lives
of shame, collecting all their earnings
except enough to keep them clothed
and fed so that they will be attractive
enough to earn. Then, when their
youth begins to fade, they sell them
to some aged and well-to-do Chinese
whose wife may have died or who,
perhaps, is not loath to have more
than one wife.
Lim Tsun cost her purchaser \$3,600.
She earned more than \$20,000 for him
before Miss Cameron came to her res-
cue.
Miss Cameron makes little of her
adventures. She says that's only the
beginning of her work.
"The real work begins," she says,
"when I have possession of the girl
and must help her back to a sound
life. I must treat each one's problem
individually. A former slave is one
of the most difficult cases. My rewards
have been great."

JOHN MARSHALL HAS LARGE CLASS
(By The Associated Press)
RICHMOND, Va., Feb. 5.—The
largest February graduating class in
the history of John Marshall High
School was announced today when
school authorities stated that seventy
pupils had completed the four years
of high school work with the be-
ginning of the mid-winter term. It
was estimated that the total number
of graduations for the 1922-23 term
would exceed 400.
New pupils enrolled at John
Marshall today from the classes of
the junior high schools of the city.
Increased the total enrollment by
475. Four new teachers were added
to the faculty.
CAPITAL PUNISHMENT
DOESN'T PREVENT CRIMES
(By The Associated Press)
NEW YORK, Feb. 5.—The warden
of Sing Sing Prison, Lewis E. Lewis,
today told the Government Club, in
session at the Hotel Astor, that among
other things:
1.—Capital punishment does not
prevent murder, so should be abol-
ished.
2.—If slayers must be executed as
a warning to would-be slayers, then
executions should be public.
3.—Murderers should be kept in
the death penalty through the clemency
of juries, judges or state executives,
are the best behaved prisoners.
In support of this last statement,
Warden Lewis declared that in the
case of one of the 150 at Sing
Sing who were paroled after serving
time for murder or manslaughter
were recommended for later crimes.
SAYS MONKEY SHOW DREW
BETTER THAN PREACHERS

of the Christ and God, at Mos-
cow, recently, Rev. C. C. McKinley,
pastor of the First Presbyterian
Church here, deplored the lack of
Sunday observance in this city.
"Sunday is the day of the Lord,"
he asserted, pointing out that on
the same day the Russians burned
the effigies of the leading attraction here
was a "monkey show" where the
Chillicothe pastors were preaching
to empty pews.

ALICE'S STORY
By Ruth Ames Abell
BEGIN HERE TODAY
KATE WARD, widow of
DAN WARD, has a visitor.
CHINATOWN ALICE, who says Dan
was father her child, is
much perturbed. Wooed by
JAMES LATHAM, of whom she is
fond, yet filled with thoughts of
Dan, she does not know what to
do. Her father, Mr. Ward, is
concerning her dead husband's past.
She invites Alice to visit her. The
latter tells something of her own
life. Her father was a bandit and
her mother a woman of fine family
who eloped and married him.
GO ON WITH THE STORY
"WITH all of the hardness and de-
nial," Alice was speaking
again. "Mother remained attractive,
really lovely, until one night, father
straggled into the house and dropped
dead at her feet—dead with ten many
wounds on his body to count."
"He had been feared through all of
that section," Alice continued, "and
finally the men who feared him got
him."
"Mother became an old woman
during that last moment of father's
life. She must have loved him and
he must have loved him in spite of
his roughness and his neglect, because
suffering intense agony, he faced with
death to reach her and die near her."
"I like that memory," there was a
thrill of pride in her voice. "I'd
rather have that memory of him than
to think of him as a successful busi-
ness man content to live and die away
from his home."
"I must have been about 10 then."
Mother stayed on in the little cabin
nothing could have dragged her out
of it. How she ever got food and
clothing for the two of us I don't
know. But she did it and not once
did she complain of the struggle. She
might have gone back to her father's
home. But she didn't. They refused
to recognize her when she married.
After that she never expected any-
thing from them, though I never
heard her speak bitterly of her relatives."
"She died about five years ago,"
the words were barely audible. "She was
found dead in the cabin by a hunting
party. I hadn't seen her for two
years. I, who had been before me,
was wifely, and had started my own
career, leaving all of my family ties
behind, as so many mountain girls
do."
The thing I remember most about
mother in her later years, is stand-

VAL OF PARADISE
by Virginia C. Roe
BEGIN HERE TODAY
JOHN HANNON, wealthy ranch
owner, his blind wife, BELLE, and
their beautiful daughter, VAL, live
happily together in a beautiful
ranch home, Paradise. Red-
star is the king of the Red Breed of
horses owned by the master of the
ranch.
Escorted by the cowboys of Para-
dise, Val attends the Fourth of
July celebration at Santa Leandra.
While dancing with LOLO SAN-
CHEZ, is shot at by a jealous suitor.
Val saves Valerian's life by caus-
ing the bullet to go wide.
During the celebration at Santa
Leandra the peerless Redstar dis-
appears from Paradise. Val
heartbroken and rides for consolation
to the Mission to see her friend,
Father Hillaire. She finds Redstar
languid at the Mission visiting with
Father Hillaire.
GO ON WITH THE STORY
The wistful look in the stranger's
eyes deepened with a sort of swift
sickness and he picked up his hat.
"I'll go," he said gently, but the
father shook his head.
"Stay until she leaves," he said
desperately, "we've had little speech
together."
Not for all the poor treasures of
his humble house would Father Hil-
laire have had Valerian's whistle
cut the quiet air, have seen The
Comet come trotting down beneath
the hanging trees.
So Valerian stood and watched
while Val came and sat in one of
the ancient chairs and put the baby
on her knee to play with its rose
leaf fingers and touch with under-
standing hands its little waxen
cheeks.
"It's a beautiful baby, padre," she
said, wisely regarding the infant. "A
darling bundle of sweetness. But I
think with that Maria is not so
good. The cough persists."
"I know," said the father anxiously.
"and I have tried all my remedies
in vain. She sickens for the sight of
that worthless one for whom she has
never ceased to mourn."
"If I had hold of him," said Val
with sudden swift viciousness, "I'd
kill him!"
"My daughter!" said the priest
sharply, and the girl blushed. But
Valerian smiled and he dropped into
a chair across the little open space
of the sandal walk.
"Suppose," he said in the low
voice that was sweet with music.
"that some one brought him back
sealed, under pain of death, to be
good to Maria and the cherub here?
Would that please you?"
"Not that anything in all this
world," cried Val impulsively, "ex-
cept—"
But she broke the speech and
glanced at Father Hillaire.
"It would be a holy work," she fin-
ished gently, "and I should be very
glad."
"Then," said Valerian, still smil-
ing, "it shall be done. Who is the
man, padre, and from where did he
have this part of the country?"
"It is only a peon from down by
Arguena across the line by the
name of Mesos Requente, and he
melted into the west somewhere. It
is a heavy promise you make, my
son."
"But one I shall be glad to re-
deem," answered Valerian.
"Val looked at him with deep eyes
that were sweet with a new depth
and a sort of wonder. This stranger
that she had begun to meet talked
quietly of big deeds and was quick
as running waters. She thought of
his acceptance of Lolo's challenge
that night in Santa Leandra and
how swiftly he had caught her mean-
ing.
"So she played with the baby and
listened to the quiet talk of the two
men and the summer day drew
toward its close, and the stranger
stayed as if he did not mean to
leave.
Bonifacio brought Lightning, and
Valerian looked at him with keen
put her gently in the girl's arms and
was gone.
Paradise settled into a sort of
pleasant lethargy after the depar-
ture of the master. Belle Hannon
was already speaking of the time
when her husband should return,
and Val spent many hours rocking
lazily in the gay-fringed hammocks.
She was her old self again in sweet-
ness, in her eager care for all the
creature of the household and the
ranch, but deep down in her heart
she did not cease to mourn for the
vanished Redstar. Sometimes at sun-
down she would cup her hands to
her lips and, giving the two keen,
long-drawn whistles notes, listen
wistfully as if from somewhere in
the far fringes of the Blind Trail
Hills she might catch the fine faint
echo of his ringing answer.
But always the vast silence of the
lumberland land was unbroken, and
Briston coming in from the dust and
drouth of a long day's ride would
talk at her piteously.
The days passed and the master
had been gone a fortnight when one
day Boyce Clendenning rode in on
Dollar.
Val, seeing him from afar, met
him in the path with smiles, all
freshly clad in a starched print
dress. In honest fairness she must
admit him respect. Sas did not
dislike him, either, when it came
down to cases, for Boyce Clendenning
was very much a man in a land
where men must be all of that to
prosper.
"Hello, Boyce," she greeted him,
laying an admiring hand on Dollar's
silver shoulder, "this is a treat—you
coming so far to see us. Or were
you going by?"
"Hardly," said the man, swinging
down to take off his hat and extend
his hand, "I came because I wanted to."
As Val led Clendenning into the
depths of the cool old room Belle
Hannon rose with the manner of a
duchess and smiled toward the sound
of their approach. The man had
heard of John Hannon's blind wife—
who in the rangeland had not—but
he had never seen her. Now he looked
at the delicate beauty of her face, her
quick, receptive intelligence, high
mark of character, and knew
why her daughter was as far above
the other girls of the country as the
clouds above the grass.
He took Belle's hands, both of
them, with a sudden pleasant liking
which communicated itself instantly
to the vibrant brain behind the
hands, and the two were friends at
once.
"This is Boyce Clendenning,"
Belle said Val, and the man felt a
strange surprise at the girl's use of
her mother's first name. He was to
learn that that was one of their
playful intimacies which made the
friendship of this mother and daughter
so rare and so perfect.
"I know," said John Hannon, "you
are the man John Hannon, like
above all others among the ranch-
ers, therefore you are good and
worthy of regard. I shall like you,
too."
Clendenning laughed, tossed his
hat away and sat down to a long and
comfortable visit.
But finally the conversation drift-
ed, as all speech must in the range-
land, to cattle and finally to rustlers.
"I suppose you've heard that the
Flying Y's had trouble?" he asked
idly.
"No," said Val at once. "What?"
"Lost eighty head of fat steers
ready for the driving."
"Good gracious! How?"
"Rustlers again. Drove them
through the Blind Trail. Trapped
daylight up to the face of the cliff,
then of course it narrowed and was
lost on the rock, for the pass into
the hills is so narrow that only two
steers can enter at the same time.
The owners trailed their cattle there
—to face two rifles sticking out on
either side of the pass, a perfect
snare. No man fool enough to de-
liberately risk his life for a bunch of
steers, so they went quietly back to
the ranch. But the country's buzz-
ing, you bet, and I'm with it heart
and soul."
Val's dark eyes flashed, for she
thought of her own loss, word of
which had been noised about the
country.
(Continued in Our Next Issue)

Sprinting Test Man vs. Woman

By WALTER CAMP
(Copyright, 1923, by The Bee)

NEW YORK, Feb. 5.—Recently we had an opportunity to make a fairly good comparison of the sprinting ability of a good man and a good woman. Bob McAllister, the "Flying Cop" covered the sixty yards in the record time of 6.2 seconds while Miss Marion McCarty covered the same distance and holds the world's record for her sex in 7.5 seconds. She ran her heat at the Prudential Athletic Club games in Newark while Bob McAllister ran his at the municipal games Madison square garden.

The question that today is raising the minds of the students of sport is whether the women will make progress from now on more rapidly than the men in record breaking. Everything should favor their getting nearer to the men's mark, as they have not been running for generations as the men have, and some superior man may come along at any time and improve on the earlier records. It would be foolish to hope, however, that they can approach for some time the actual speed of the men contestants.

Two months hence will be rowed the great Oxford and Cambridge race,

which has been a feature of the Thames for nearly ninety years. Already the races of the trial heat eight have been held and the Oxford and Cambridge crews selected. The trial heat showed the present Oxford crew as superior by length to the other trial eight, but at Cambridge the difference was less than a length. At this writing it looks like a fairly even proposition.

The result of three years' devotion to a policy of sports for all at the University of Pennsylvania, and the opening of the three new river fields of the Schuylkill river appears in the representative issues, which shows that outside the squad trying for the University and freshmen teams, the number of men playing basketball has more than doubled, and in baseball it has tripled. More than that, the over-plus of men who were dropped from the football squad, amounting to some sixty-six men, were kept together or playing throughout the season.

But the most marked was in the case of crews. Eighteen crews were kept together on the river throughout the whole rowing season. In swimming 631 kept in this branch and the number had to be limited at that point. Track and field have gone up to 525, the limit of accommodations.

Swimmers Owe Great Speed To Stroke, Is New

NEW YORK, Feb. 5.—Improvement in strokes, not men, accounts for the fact that Johnny Weissmuller, Duke Kahanamoku, Norman Ross and present day swimmers in general are traveling yards faster than the experts of 10 and 20 years ago, according to Joe Ruddy, perhaps the greatest of all water polo players.

Weissmuller wiped out some twenty or thirty records during the 1922 campaign and is hailed as the super-being of the tanks and open-water stretches, but, in Ruddy's opinion, Charlie Daniels was born ten years too soon. Daniels was Ruddy's belief that Daniels would break record for record with the Illinois A. C. marvel.

Inferior Stroke

"Daniels was creating world's records with a stroke far inferior to the six-beat double-rudgeman that Weissmuller uses today," quoth Joseph, who has seen them all come and go since the pioneer days of the Cayd brothers right on down to the present generation.

"Another thing," he continued, "you can judge for yourself by the fact that Weissmuller often beats his field by mere fifts of seconds, whereas Daniels disposed of Beaurepaire, of Australia, then the world's record holder by seven yards in 100 metres.

By comparison, Ruddy intimates, Daniels' supremacy over the old school was so much greater as to indicate that strokes and not men make modern records possible.

"In what other branch of sport has the record been reduced from 1.10 to the hundred to 52.4 seconds?" Ruddy inquires plausibly enough. "The sprinters on the cinder path were just as good twenty years ago as they are now."

AMERICAN WINS CUP COMPETITION

(By The Associated Press)

OXFORD, England, Feb. 5.—In the Oxford University inter-collegiate Cup competition today Tevis Huhn, of Princeton University and University College, won the 200 yard high hurdles in 27 seconds, the 120 yard high hurdles in 17.5 seconds and the broad jump with a leap of 20 feet 10 inches. The running track was heavy.

W. E. Stevenson of Princeton and Balliol College, won the quarter mile race in 52.4 seconds, and the 100 yard dash in 18.5 seconds.

Six colleges competed. University College winning with 32 1/2 points.

GOLF TOURNEY CALLED OFF

NEW ORLEANS, Feb. 5.—The open golf tournament scheduled to be held February 12, 13 and 14 has been called off it was announced today following a meeting of the New Orleans Golf Association.

The action was taken when it was learned that many of the stars, including Gene Sarazen, Walter Hagen, Jack Huchison, Jim Barnes, Joe Kirkwood and Johnny Farrell would be present on the dates selected.

The local association decided to request Sarazen, Hagen, Kirkwood and Huchison to come here at some later date for a series of exhibition matches.

Young W. G. H. Cops Honors

This young man on horseback, aged 3, whose name is Warren Gamaliel Harding (just like the president's), was adjudged the most perfect in mind and body of San Diego, Cal., children in recent contest.

100 Straight

One hundred straight victories is the remarkable record of the Pasadena High School basketball team. Captain W. Knothe (above), right guard, has been a big factor in the record.

CERTAIN TO BREAK RECORD AS ALL-ROUND ATHLETE

WHEN the final whistle blew in the basketball game between Wisconsin and Indiana at Bloomington on Jan. 8, Rollie Williams, star athlete of Wisconsin, had tied the record of all time for Wisconsin's greatest all-round athlete. The record has just been made public.

The Indiana game gave Williams his eighth varsity letter, a feat unequalled since Guy Staudt in 1922 broke the record of Eber Simpson. Simpson made his record with seven varsity letters in 1918.

In addition, Williams won his letters when athletic competition was at its height in Wisconsin. It is no detraction from Staudt to point out that he broke the Simpson record during the period which was marked by S. A. T. C. year when athletes were at their low ebb in all colleges over the country.

But Williams' honor is expected to be the greater before the end of the school year. He is slated for a left-field berth on the varsity baseball team, which would give him his ninth letter.

This would break all Wisconsin records and make Rollie the greatest all-round athlete, officially, the Cardinal has ever produced.

Williams is the ideal type of college athlete. There has never been any question as to his scholarship, as he has always stood high in class and is of a somewhat studious type. He is personally popular outside of that popularity which comes as a bit of glamor to the varsity athlete.

Get Early Start

One of the greatest honors Williams can claim is the fact that as early as his sophomore year he was mentioned by Walter Camp as coming All-America material.

His first year in basketball he was a universal choice as All-Western guard. He has been placed on most

ROLLIE WILLIAMS

All-Conference and many All-Western football teams.

In baseball, he is a flashy fielder and a fair hitter. His speed allowed him to cover lots of ground. He was a dangerous man on the base, and although there are more consistent hitters in the conference, he has always been a dangerous man in a pinch.

CALVARY BEATS BAPTISTS, 21-13

Calvary defeated the Baptists in a Sunday school league game last night by the score of 21 to 13. It was a close and hard fought game in the first half and the first part of the last half the teams were running close after that Calvary broke loose and caged the ball several times in fast time and gradually forged ahead.

Lack of team work on the part of the Baptist boys was their chief fault, and each one seemed over-anxious about shooting. Weller and Dickerson were high scorers for their team. Carter did not seem to be able to cage the ball as the usual does.

For Calvary, Hunter Lea was high scorer, getting four field goals all of them coming in the second half. Farley, Dudley and Earl Lea caged two double deuckers. Berman played well at guard and was always intercepting some well intended Baptist pass. Both teams missed the basket often on easy shots.

The line-up:

Calvary	Pos.	Baptist
Hunter Lea	Forward	Weller
Farley	Forward	Carter
Dudley	Center	Dickerson
Berman	Guard	S. Lea
E. Lea	Guard	Wilson & Martin

Field goals: Weller 2; Carter 1; Dickerson 2; E. Lea 2; Dudley 2; Farley 2; Hunter Lea 4.

Foul goals: Dickerson 3 out of 5; Dudley 1 out of 2.

Referee: Heubi. Scorer and time-keeper, Phillips.

The intermediate league will resume their schedule tonight in the Y. M. C. A. gymnasium, when Episcopal plays the Baptist and Mt. Vernon plays Calvary. These games will be of much interest and some fine play can be seen by the backers of the different teams. The games will start promptly at 8:15 o'clock.

Better Stroke

"We took their Australian crawl stroke and improved it until today we lead in the world, with a six-beat double and single rudgeman crawl, our own creation. There is no country in the world that has done as good a job of improving from us. Our women swimmers stand out as prominently as our men do internationally."

"For a while the swimmers led by Duke Kahanamoku, from the Hawaiian Islands, looked as if they might be dangerous rivals of ours. But" went on Ruddy, "they play too much in the water. Surf riding, and explaining, 'come take them away from training. They delight in playing under warm tropical sun. The Duke, the Kahanamoku brothers, Harris and Australia with the best swimmers as the world has ever seen, but their love of playing their spare moments away robbed them of being still greater against the pick of the foremost competitive swimmers of the world."

JACK BENTLEY IS A "HOLDOUT"

(By The Associated Press)

BALTIMORE, Md., Feb. 5.—Jack Bentley, former Oriole star, sold last fall to the New York Giants for \$55,000 is a "holdout" from the New York Club. But Bentley did not let the matter rest there. He said:

"I never intend to wear a uniform in organized baseball again if I do not in some way benefit by my sale by Dunn to the Giants."

Bentley's decision to stand by his guns until a part of his purchase price is forthcoming dates from this morning when he called on Dunn at Oriole Park. His former boss flatly refused to yield and told him that he did not consider that he was under any obligations to grant him a part of the money.

Title Bout Not Likely For Jack Dempsey Soon

(By The Associated Press)

NEW YORK, Feb. 5.—Jack Dempsey is not likely to remain idle all winter. He tonight signed a contract with a Dublin Syndicate to fight the American middleweight, Mike McKue, in the Scala Theatre, Dublin, on St. Patrick's Day, according to "Echo Des Sports." The fight is to be for twenty rounds for a purse of 2,000 p. s. three-fourths of which will go to winner.

ICE JAM FORMED

(By The Associated Press)

OGDENBURG, N. Y., Feb. 5.—An ice jam, ten miles long and at places 20 feet high, has been formed in the St. Lawrence River between the head of the Long Sault Rapids and Norrisburg on the Canadian shore.

Considerable damage has been caused along the Canadian shore. Operation of power plants long the river has been hampered by the jam.

Teaching America's Beauty to Ski

Katherine Campbell, America's prettiest girl, had a hard time learning to ski. Helen Morgan, most beautiful girl in Canada who was Miss America's host in Montreal, is shown carrying Miss America on her shoulders.

For the Game's Sake

BY LAWRENCE PERCY
(Copyright, 1923, by The Bee)

NEW YORK, Feb. 6.—Among all the women golfers playing in the South—and there is a veritable army—Mrs. Cate Fox, of Huntington Valley is the heroine. This is partly because of her victory over Glenna Collett over the short course at Litchfield, Florida—her card reading 73 to Miss Collett's eighty—but chiefly because of the triumph of age over youth which marked the downfall in successive days of Mrs. Dorothy Campbell Hurd and the women's National Champion.

Besides, there is vast speculation how much further this woman of 62 years will go in her Southern career. Reports from Florida show that Mrs. Fox is adhering to her policy of a short and accurate game, wherein she exemplified Harry Vardon's theory of the advantages of short and unerring play over a smashing game characterized by errors. The veteran's drives, with the run, are averaging about 150 yards down south—which is a good average for any woman; at the same time no wear and tear are involved. That is the beauty of golf, it can be played easy or hard with excellent results in either case. This of course adds to the life of an expert performer, whereas in lawn tennis a woman, or a man either, is pretty nearly through from thirty on.

With Mrs. Hurd, Miss Collett and Mrs. Fox at Belleair are Edith Campbell and several other crack women golfers who in the monthly tournaments will do a lot to keep this course on the map.

BATTLING SIKI SIGNS TO FIGHT AMERICAN

(By The Associated Press)

PARIS, Feb. 5.—Battling Siki, the Senegalese fighter tonight signed a contract with a Dublin Syndicate to fight the American middleweight, Mike McKue, in the Scala Theatre, Dublin, on St. Patrick's Day, according to "Echo Des Sports." The fight is to be for twenty rounds for a purse of 2,000 p. s. three-fourths of which will go to winner.

INFILDED IS RELEASED

(By The Associated Press)

NEW YORK, Feb. 5.—The New York National League team today released infielder Frank Fuller to the San Antonio team of the Texas League. Fuller recently sent in his contract unsigned, asking an increase in salary. His release was the answer to his request.

NESTOR KNOCKED OUT

(By The Associated Press)

NEW YORK, Feb. 5.—Floyd Johnson of Iowa, aspirant to a title bout with heavyweight champion Jack Dempsey, tonight knocked out Mike Nestor in the fourth round of the 12 round match.

Nestor was saved twice by the bell in the second and third rounds, and went to the canvas five times altogether. The Iowa was in command from the start, overing his man with blows in the first session and hardly taking a punch throughout the match.

NEW YORK, Feb. 6.—Among all the women golfers playing in the South—and there is a veritable army—Mrs. Cate Fox, of Huntington Valley is the heroine. This is partly because of her victory over Glenna Collett over the short course at Litchfield, Florida—her card reading 73 to Miss Collett's eighty—but chiefly because of the triumph of age over youth which marked the downfall in successive days of Mrs. Dorothy Campbell Hurd and the women's National Champion.

Besides, there is vast speculation how much further this woman of 62 years will go in her Southern career. Reports from Florida show that Mrs. Fox is adhering to her policy of a short and accurate game, wherein she exemplified Harry Vardon's theory of the advantages of short and unerring play over a smashing game characterized by errors. The veteran's drives, with the run, are averaging about 150 yards down south—which is a good average for any woman; at the same time no wear and tear are involved. That is the beauty of golf, it can be played easy or hard with excellent results in either case. This of course adds to the life of an expert performer, whereas in lawn tennis a woman, or a man either, is pretty nearly through from thirty on.

With Mrs. Hurd, Miss Collett and Mrs. Fox at Belleair are Edith Campbell and several other crack women golfers who in the monthly tournaments will do a lot to keep this course on the map.

BATTLING SIKI SIGNS TO FIGHT AMERICAN

(By The Associated Press)

PARIS, Feb. 5.—Battling Siki, the Senegalese fighter tonight signed a contract with a Dublin Syndicate to fight the American middleweight, Mike McKue, in the Scala Theatre, Dublin, on St. Patrick's Day, according to "Echo Des Sports." The fight is to be for twenty rounds for a purse of 2,000 p. s. three-fourths of which will go to winner.

ICE JAM FORMED

(By The Associated Press)

OGDENBURG, N. Y., Feb. 5.—An ice jam, ten miles long and at places 20 feet high, has been formed in the St. Lawrence River between the head of the Long Sault Rapids and Norrisburg on the Canadian shore.

Considerable damage has been caused along the Canadian shore. Operation of power plants long the river has been hampered by the jam.

INFILDED IS RELEASED

(By The Associated Press)

NEW YORK, Feb. 5.—The New York National League team today released infielder Frank Fuller to the San Antonio team of the Texas League. Fuller recently sent in his contract unsigned, asking an increase in salary. His release was the answer to his request.

NESTOR KNOCKED OUT

(By The Associated Press)

NEW YORK, Feb. 5.—Floyd Johnson of Iowa, aspirant to a title bout with heavyweight champion Jack Dempsey, tonight knocked out Mike Nestor in the fourth round of the 12 round match.

Nestor was saved twice by the bell in the second and third rounds, and went to the canvas five times altogether. The Iowa was in command from the start, overing his man with blows in the first session and hardly taking a punch throughout the match.

NEWPORT NEWS HAS HEAVY FALL OF SNOW

(By The Associated Press)
NEWPORT NEWS, N. H., Feb. 5.—Four inches of snow covered Newport News and this section and with the mercury steadily dropping down, being at 30 at 6:30 o'clock tonight, the first real grip of winter weather is experienced. Blowing snowfall hampered shipping and only three vessels reported passing in the capes. Snow and strong wind are making it very uncomfortable along the waterfront.

SOUTH CAROLINA HAS ESCAPED BAD WEATHER

(By The Associated Press)
COLUMBIA, S. C., Feb. 5.—With reports from all over the state and from cities on the border telling only of rain and a substantial drop of temperature, South Carolina tonight seems to have escaped the worst part of the cold wave which is sweeping the Southland. In no place has sleet or snow been reported.

Show Shows 'Em

"Sentenced to the theater—and I'll pay for the seats," said Judge William L. Morgan of Chicago when Harry Goldstein and his wife appeared before him with a tale of domestic discord. After they had even the play—one that showed the follies and foibles of family quarrels—they promised Judge Morgan they'd never again row.

Accounting To The Last Cent For Millions Spent In Aid Of Russian Famine Victims

Left, Edward M. Fleisch, head of the Purchasing Commission for Russian Relief. Center, Herbert Hoover, head of the American Relief Administration. Right, Julius H. Barnes, head of the United States Grain Corporation, which acted as fiscal agent for the Purchasing Commission.

Herbert Hoover, Chairman of the American Relief Administration, has transmitted to President Harding a full report of the expenditure of funds authorized by Congress for the relief of Russia. The report, vouchers, auditors' statements and various necessary documentation accompanying it, make up sixteen huge volumes.

In his letter of transmission Mr. Hoover states that "there has not been a deduction of one penny for the entire overhead cost of the strictly charity section of the American Relief Administration during this period but has earned a large margin for use in feeding destitute children in Russia. This means that every cent of the \$20,000,000 appropriated by Congress was spent for food; that of the sum amounting to between \$10,000,000 and \$11,000,000 entrusted to the American Relief Administration by the United States Government to purchase food and seed in America, not a penny was deducted for administrative expense, and that of every dollar contributed to the American Relief Administration, 100 cents was expended for relief without the deduction of a single penny for the cost of administration.

The report shows that the total funds made available for Russian relief through the American Relief Administration amounted to approximately \$60,000,000; that the total shipments to Russia were 425; that these shipments totalled \$52,154 short tons and that in them corn was the largest single item, comprising more than three-eighths of the total tonnage.

The complete documentation of the report involved a vast amount of labor as the food stuffs are accounted for from the time of their purchase straight through to their actual distribution to the Russian people. It includes the report of the United States Grain Corporation which acted as fiscal agent of the Purchasing Commission for Russian Relief headed by E. M. Fleisch. It also includes the report of the Comptroller of the American Relief Administration covering the entire distribution of the commodities after they arrived at the Russian ports of discharge. The whole of this documentation has been independently audited. An indication of the amount of documentary evidence is shown above.

HELIUM WAS NOT CAUSE OF BLAST

(By The Associated Press)

WASHINGTON, Feb. 5.—The explosion at the helium purification plant at Langley field, Virginia, on Saturday in which one man was killed and another injured was said by Dr. R. B. Moore, of the Bureau of Mines today to be in no way connected with helium. After an inspection of the plant in company with John W. Davis and W. E. Seibel of the bureau, Dr. Moore said there was no helium in the plant at the time of the explosion and the presence of helium had absolutely nothing whatever to do with the cause of the explosion.

"At the time of the accident," he added, "the plant was being tested out under air pressure."

An army board is at present conducting an investigation of the accident and will make its report to Major General Patrick, chief of the army air service.

GOVERNMENT CLAIM AGAINST LINCOLN CO. SETTLED IN FULL

(By The Associated Press)

DETROIT, Mich., Feb. 5.—The United States Government's claim of approximately \$9,000,000 against the Lincoln Motor Company was settled in full today for \$1,550,000 when the Detroit Trust Company, receiver for the concern, drew a check for this amount.

The sum paid was taken from the \$5,000,000 paid for the company by Henry Ford as a receiver's sale last year. Creditors of the Lincoln Company will receive approximately 47 cents on the dollar.

Dry Round-Up Is Spoiled by "Leak" of News

Exposure of Activities of Agent Ashur Cripples the Plans of the U. S. Prohibition Bureau.

NEW YORK, Feb. 5.—Nation-wide publicity given Federal Agent J. N. Asher, known as "Tizzle Einstein of the South," during the general liquor clean-up last week has halted activities of the prohibition unit in carrying out plans for similar action in other large eastern cities, and has created a stir among officials of the unit, it was learned last night.

Wholesale raids, similar to the one in Washington, had been planned for Baltimore, Philadelphia, New York and other large cities. It was intimated by officials last night that these plans have been temporarily postponed at the advice of the respective state authorities.

Asher's identity is something of a mystery. Yesterday, with a horde of newspapermen and photographers on hand when the prisoners were being brought in, Asher was a quiet, unobtrusive figure. In a stage whisper, the photographer requested that "this man Asher" be pointed out to him.

"He is a tall, thin sort of a guy," the short, sturdy Asher replied. "I don't see him around now."

Information as to how Asher made purchases of liquor from more than fifty Washington "bootleggers" in one day has reached whiskey sellers of the other large cities and according to information received by Washington officials, these violators are on the lookout for Asher.

Prohibition Commissioner Haynes last night said the information concerning Asher's activities in this city had been given to newspapers in violation of the prohibition regulations. He refused to divulge Asher's present whereabouts.

Asher's activities in Washington have been made several days previous to Asher's arrival at the office of Edgar N. Read, chief of the Washington agents.

Asher arrived three weeks ago and up to noon Friday obtained evidence in at least fifty locations. He used various disguises including that of a Kentucky Colonel, an ashman and a lawyer.

As a "lawyer" he walked into a downtown barber shop carrying a briefcase. He called for a hair-poly and then enlarged the order. He got what he wanted. The barber, porter and a professional bondman were arrested.

In another instance Asher played the role of the "good sport" after a ring whose members like to stage big parties. Asher, with disguises to fit the part, won his way into this circle by posing as a railroad engineer looking for excitement.

He soon became the liberal spender of the outfit. Finally, he announced that he would give a large dinner. He promised to be on hand promptly. In his place, came the police. The dinner party was escorted to a police station.

GUARANTEE OF WHEAT PRICES PROPOSED

WASHINGTON, Feb. 5.—A government guarantee of wheat prices based on \$1.75 per bushel for No. 1 northern was proposed in a bill today by Senator Gooding, Republican, Idaho, to create a federal wheat stabilization corporation with \$300,000,000 capital subscribed by the government.

The proposed corporation would be authorized to deal in wheat, turning any profits into the Treasury and also would license elevators and warehouses and regulate their charges.

LEMAR FAILS TO MAKE GOOD PREDICTION: STILL AT LIBERTY

(By The Associated Press) NEW YORK, Feb. 5.—David Lamar known as the "Wolf of Wall Street," who is under sentence of a year's imprisonment in the penitentiary at Caldwell, N. J., today failed to make good the prediction of his attorneys that he would surrender to the United States Marshal.

Lamar's disappearance from his home here was discovered Saturday when bench warrant for his arrest was issued.

EVERYTHING ABOUT SPRING SUITS IS NEW

EVERYTHING about the spring suits is new—style, fabrics and trimmings. Especially the styles. Three-piece suits are the only fashionable wear and new packets are being designed every day. Two of them are sketch-eds. Notice the unbelted, pleated waistline of the one, and the beloused, skirted sleeve of the other.

By JOHN E. RAKER U. S. Representative From California, Second District

THE difference between theoretical knowledge and practical is illustrated by the story of the farmer who wandered into a chemical laboratory. He found several young chemists busy with retorts and test tubes. "What are you trying to do?" he asked. "We're endeavoring," replied one of the students, "to discover or invent a universal solvent."

Red Flags Over Capitals Of World Soviet Dream

MOSCOW, Feb. 5.—Soviet leaders have not by any means given up the hope of some day seeing the red flag flying over the capitals of the world, including the city of New York. At least some of them openly express themselves to this effect. Addressing a banquet of Communists here recently, Leo Khamnoff, chairman of the Moscow Soviet, said the Bolshevik workers should be proud of the fact that they hold within their grasp the only capital on earth where the general staff of the working class can safely plan for the struggle of the future.

"And I look forward to the time," Khamnoff said, "with earnestness, when the red banner of revolution will fly not only from within the ancient walls of the Kremlin in Moscow but also from the flagstaffs of towers in Paris, London, Rome and New York."

Twenty-five hundred members of the Third International, the Red Trade Internationale and the International of Youths attended the banquet, the largest affairs of its kind which has taken place in Russia since the Soviets came into power.

Hobo Shot Dead

Women Ship Body Home to Mother

ROCKY MOUNT, N. C., Feb. 5.—A fund raised by the mothers of Rocky Mount is carrying back to a St. Louis mother tonight the remains of Cleasie Dees, youthful hobo, who was shot and killed two weeks ago while attempting to escape from a prison road gang near here. He was serving a thirty-day term for vagrancy. The wave of emotion sweeping the city after the shooting, culminating in removal of the body from Potter's field, an autopsy by the health department, a coroner's inquest, comment in local pulpits, and the campaign for money to send the dead boy to his grief-stricken mother.

The coroner's jury held the guard's shot was done "in the performance of his duty."

TO IMPROVE HOTEL

(By The Associated Press) BRISTOL, Va., Feb. 5.—Improvements to the Travelers Hotel consisting of enlargements to the lobby and general remodeling will be made in the next few weeks, the management said tonight. The Travelers Hotel is located in the building formerly occupied by the Tip Top when it was Bristol's leading hotel. For many months it remained closed but recently was re-opened under new management. Increased patronage is given as the reason for need of more room in the lobby and other parts of the building.

WALKED 68,000 MILES

LYNCHBURG, Va., Feb. 5.—R. S. Weekly, a veteran industrial insurance collector here, who resigned his position yesterday, figured that during the last 18 years he had walked the streets of Lynchburg and its suburbs slightly more than 68,000 miles or more than twice the distance around the world.

TWO BILLIONS FOR DWELLINGS

(By The Associated Press)

CLEVELAND, O., Feb. 5.—Steps have been taken for the construction of \$2,000,000,000 worth of dwellings in the United States where a home building drive is on. It was disclosed here today at the fifth annual convention of the Common Brick Manufacturers Association of America. The plans for the dwellings already are in the hands of architects as are also plans for other buildings which will cost \$3,000,000,000.

The figures were furnished by Ralph P. Stoddard, secretary and manager of the association, who will make his report to the convention tomorrow.
